AERONAUTICS:
Airship Mooring Tower at St. Hubert, Montreal Airport, 358
Airship Shed, New, at Akron, Ohio, for the Goodyear-Zeppelin Corporation, 21, 22, 44, 45, 48
Beardmore "Tornado" Heavy Oil Engine for "R 101," 21
Dornier "Do X" Twelve-engined Flying Boat, 16, 21
Fairey Long-range Monoplane, 19, 21
Ford All-metal Fourteen-passenger Monoplane, 20, 21
Gloster All-metal Survey Biplane, 16, 19
Gloster-Napier 6, Schneider Trophy Seaplane, 16, 19
Japanese Aircraft Carrier "Hosho" and Her Stabilisating Equipment, 628
"R 100" and "R 101," 21, 22 (*Supplement, January 3rd*, 1930)
Searchlight, Improved, for Air Defence, Daniel Bengtson, Captain, Royal Swedish Artillery, 638
"Supermarine Rolls-Royce S 6," Schneider Trophy Winner, 16, 19
AERONAUTICS (*continued*):
Testing Aeroplane Wing Ribs, Sir W. G. Armstrong, Whitworth Aircraft, Ltd., 321
Vickers Single-seater All-metal Interceptor Fighter, 19, 20
Westland Six-seater, Three-engined Limousine Monoplane, 19, 21
Westland Single-seater All-metal Interceptor Fighter, 19, 20
AIR Compressor Set, Automatic B.E.N. Patents, Ltd., 500
Arc Welding at a Large Boiler Works, English Electric Company, 344
Artesian Well at Slough, Noteworthy, C. Isler and Co., Ltd., 542
Articulated Steam Rail Coach for Egypt, Birmingham Railway Carriage and Wagon Company, Ltd., 348, 349
Automatic Stabilisation—*see* Ships

B

BALANCING Machine, 60-Ton, Japanese, 110, 111
Bitumen Consistency Testing Apparatus, "Haig and West Automatic Electric Penetrometer," 405, 406
Bogies—*see* Locomotives
BOILERS:
Boiler, Duplex Thimble-tube for Motor Ships, Clarkson Thimble-Tube Boiler Company, Ltd., 333
Boiler, Experimental, 1200 lb. Pressure, Yarrow and Co., Ltd., 52, 53
Boiler Installation, 600 lb. per square inch, Design and Results of, William Nithsdale, 356, 357, 384, 385
Boiler Plant for Hackney Extension Station, Simon-Carves, Ltd., 322
Boiler, 550 lb. Pressure, Babcock and Wilcox, 52, 53
Boiler, Water-tube Type, 210 lb. Pressure, Hawthorn-Armstrong, 52, 53
Boilers, Ladd, Largest in the World, Combustion Engineering Corporation, 140, 141
Boilers, Sectional Water-tube, for Merchant Ships, Admiral Whayman, 86
Marine Water-tube Boiler, John I. Thornycroft and Co., Ltd., 696
BRIDGES:
Bridges, Post-earthquake, in Tokio, 295–297, 300
Howrah Bridge, Proposed New, 152
Khartoum–Omdurman Bridge, 22 (*Supplement, January 3rd*, 1930)
Montreal Harbour Bridge, 676–678, 705–707, 714
Newcastle–Gateshead New Road Bridge, Dorman, Long and Co., Ltd., 95 (*Supplement, January 24th*, 1930)
Royal Albert Bridge, Saltash, Reconstruction of Land Spans, 22 (*Supplement, January 3rd*, 1930)

CAISSONS, Building Up Quay Wall on, 209, 216
Calibrating Equipments, Influence of Pipe Diameter on Orifice Discharge Coefficients, Johansen, F. C., 679–681
Canadian Research Laboratories Building, Model of, 551
Centrifugal Feed Pumps for High-pressure Combined Steam and Electric Feed Pump: Boilers; Feed-circulating Pump; Turbine-driven Pump; Turbine and Motor-driven Pump, G. Weyland, Director, 666, 667
COAL, COKE, AND COLLIERIES:
Coal-crushing Machine, British Jeffrey-Diamond, Ltd., 668
Coal-handling Gantry on Quay Wall, 209
Coke Ovens, New, near Sheffield, Woodall-Duckham Company, 595–598, 604; (Correction), 648
Coke Shatter Test Apparatus, 523
Locomotive Coaling Plant in Scotland, L.N.E.R., 434, 442
COMPRESSOR—*see* Air Compressor
Contraflow Gravel Washer, Hardy and Padmore, Ltd., 413
Couplings—*see* Locomotives
Crane, Block-setting Titan, for Table Bay, Stothert and Pitt, Ltd., 326, 334

D

DE-AERATOR, Improved, for Boiler Feed Water, Mirrlees-Watson Company, Ltd., 332
Direct Recording of Cross Sections of Civil Engineering Works, R. D. Duncan, 555

E

ELECTRICAL MATTERS:
See also Manufacture, &c.
Agecroft Power Station, Extension of, Metropolitan-Vickers Electrical Company, Ltd., 566–569
Boiler House Plant, 567, 569
Central-flow Condenser, 566, 569
Howden-Ljungstrom Air Preheater, 566, 569
Steam Turbine for 20,000-kW Turbo-alternator Set, 568, 569
Turbo-alternator, 20,000-kW, 566
Alternator with Fan Driven from Main Shaft, British Thomson-Houston, 8, 9
Automatic Sub-stations Equipment, English Electric Company, Ltd., 322
Belfast Electric Power Station, 654, 655
Central Scotland Electricity Scheme, 494–496
Electrical Distribution in Manchester, H. C. Lamb, 224
Electric Totalisator at Newmarket, British Thomson-Houston Company, Ltd., and the Automatic Telephone Manufacturing Company, Ltd., 582, 583
ELECTRICAL MATTERS (*continued*):
Electrification of Visp-Zermatt Railway, 318
Frequency Changer, 30,000-Kilowatt, Metropolitan-Vickers Electrical Company, Ltd., 438
Generators, Small Motor, Transmitter and Part of Main Switchboard, Brookman's Park, 38
Hams Hall Power Station, 37,500-kVA Turbo-alternator, 8 (*Supplement, January 3rd*, 1930)
High-power Mercury Arc Rectifiers, Brown, Boveri and Co., 613
High-pressure Extensions to the Issy-les-Moulineaux Power Station, 11,200-kW High-pressure and 35,000-kW Low-pressure Turbines, and 35,000-kW High-pressure Turbo-generator, Coal Pulverising Plant, &c., 178–180, 188
High-voltage Research Laboratory, Metropolitan-Vickers Electrical Company, Ltd., 268, 272
High-voltage Testing Laboratory, Siemens Brothers and Co., Ltd., 155–157
Interior of Tocopilla Power Station, Chile, 430
Kearsley—*see* Turbo-alternators
Oil Engine Driven Generating Plant at the Hennigsdorf Peak Load Station, 430,656, 718–720; 12,000 B.H.P. Airless-injection Double-acting Oil Engine, 656; Friction Coupling and Operating Cylinder, 657; Turbine Blower Pumps and Air Compressor, 657
Operating Results with the Recent Extensions at Barton Power Station, H. L. Guy and H. C. Lamb, 374, 376–378, 414–416
Portishead Power Station 8 (*Supplement, January 3rd*, 1930)
Power-house, Powell River, British Columbia, and 12,000-kVA, 2300-Volt, Three-phase Generator, 106, 112
Rotary Isolating Link, G.E.C., 36
St. George's Bay Power Station, Athens, English Electric Company, 9
Shannon Hydro-electric Power Undertaking, 634, 638, 653, 660
Belfast Power Station, 655; Electric Generating Plant at Guinness' Brewery, 654; Transformers at Fleet-street, Dublin, 654
Slacks Valley Power Station, 8 (*Supplement, January 3rd*, 1930)
Switchgear, High Power, 132, 133; Switch, 1,000,000-kVA, switch, 2,000,000-kVA, 133
Switchgear, New, for the Derby Corporation Power Station, British Thomson-Houston Company, Ltd., 384
Transformer, 60,000-kVA Three-phase, Ferranti, Ltd., 360
Transformer, 6000-kVA, Three-winding, Metropolitan-Vickers Electrical Company, Ltd., 642
Transformers at Fleet-street, Dublin, 654
Transformers, Large, for New Zealand, British Thomson-Houston Company, Ltd., 640
Turbo-alternators, 32,000-kW, Kearsley Power Station, 9 (*Supplement, January 3rd*, 1930)
Turbo-generator at the Portobello Power Station, Edinburgh, 524, 525
ENGINES AND MOTORS:
Heavy Oil Engine, Small, R. A. Lister and Co., Ltd., 558
Horizontal Opposed-piston Geared Marine Oil Engine, Possibilities of the, Thomas Petty, 622–625
Marine Oil Engines:
Brown-Sulzer 9300 S.H.P. Five-cylinder Oil Engine, 26, 27
Doxford 2900 S.H.P. Opposed-piston Engine, 42
Harland-B. and W. 10,000 S.H.P. Four-stroke Double-acting Engine, 28
Lentz Marine 2200 I.H.P. Engine, 52
Richardsons-Westgarth 1250 S.H.P. Double-acting Engine, 42
Six-cylinder North-Eastern-Werkspoor 2250 S.H.P., 26, 27, 42
Sulzer 7040 S.H.P. Ten-cylinder Engine, 44
Oil Engine, 850 B.H.P. Airless Injection, Driving Direct-current Generator, Ruston and Hornsby, Ltd., and Mather and Platt, Ltd., 166–168
Oil Engines, Large Two-stroke Double-acting, for Land and Marine Work, M.A.N. Company, 430; 3750 B.H.P. Double-acting Oil Engine, 430; Seven-cylinder 5600 B.H.P. Double-acting Oil Engine, 431
Turbo-charged Marine Oil Engine, 2750 B.H.P. Exhaust, Trials, North-Eastern Marine Engineering Company, Ltd., Professor C. J. Hawkes, 244, 248–250
EVAPORATOR, Englisch-Clarke Chapman, 641

Naval Engineering Purposes, Some Materials Used for, Engineer-Captain J. Hope Harrison, R.N., 440
New Zealand Shipping Company's Motor Liner, "Rangitata," 26 (*Supplement, January 3rd*, 1930)
North German Lloyd Liner "Bremen," 10 (*Supplement, January 3rd*, 1930)
Orient Liner for Australia, the "Orontes," 10
P. and O. Liner "Viceroy of India," 13 (*Supplement, January 3rd*, 1930)
"President Dal Piaz," Swan, Hunter and Wigham Richardson, 10, 11
Prince Line Motor Ship "Southern Prince," 26 (*Supplement, January 3rd*, 1930)
Propelling Machinery of the North German Lloyd Liner "Bremen," 608, 609–611, 684, 685, 688
Pulverised Coal-burning s.s. "Berwindlea," 53
Research Ship "Discovery II.," 11, 12
Self-trimming Collier, "Kaimiro," 13
Southern Railway Steamer "Canterbury," Wm. Denny and Brothers, 11, 12
Union-Castle Motor Liner "Dunbar Castle," Harland and Wolff, Ltd., 602
Union-Castle Motor Liner "Llangibby Castle," 26 (*Supplement, January 3rd*, 1930)
Vibration in Motor Ships, Causes and Prevention of, Robert Sulzer, 453, 468
White Star Motor Liner "Britannic," Harland and Wolff, Ltd., 710–712

SLIPWAY, 2100-Ton, at Aruba, Dutch West Indies, Crandall Engineering Company, 196
Some Developments—*see* Gear Grinding
Spark Testing—*see* Practical
Steam Nozzles Research Committee, Final Report, Model, Elevation and Plan View, Dr. Telford Petrie, 235, 236, 264; (Letter), 270

ACKWORTHIE, J., Ltd., *Suppt.*, 21.2.30, vii
Aerograph Company, Ltd., *Suppt.*, 14.2.30, viii
Alldays and Onions, Ltd., *Suppt.*, 14.2.30, ii
Allen, W. H., Sons and Co., Ltd., 212 *and Two-page Plate*, Fig. VIII.

B

BIRMINGHAM Electric Furnaces, Ltd., 214
Blackstone and Co., Ltd., 214 *and Two-page Plate*, Fig. II.; (Note), 242
British Electrical and Allied Manufacturers' Association, *Suppt.*, 21.2.30, iv, v
British Thomson-Houston Company, Ltd., *Suppt.*, 21.2.30, ii
Brooks (Oldbury), Ltd., 241, 242
Bull Motors, Ltd., 214
Bulpitt and Sons, Ltd., *Suppt.*, 14.2.30, i

C

CASSEL Cyanide Company, Ltd., 242
Catterson Smith, R. M., *Suppt.*, 21.2.30, iv
Chloride Electrical Storage Company, Ltd., *Suppt.*, 21.2.30, vii
Cochran and Co. (Annan), Ltd., *Suppt.*, 14.2.30, ii
Crossley Brothers, Ltd., *Suppt.*, 21.2.30, i, *and Two-page Plate*, Fig. VII.

D

DAVEY, Paxman and Co., Ltd., *Suppt.*, 21.2.30, viii, *and Two-page Plate*, Fig. III.
Davidson and Co., Ltd., 242
Dennis Bros., Ltd., *Suppt.*, 21.2.30, iv
Dominion Machinery Company, Ltd., 276

E

ELECTRIC Furnace Company, Ltd., *Suppt.*, 14.2.30, vii, viii
Electrical Power Engineering Company, Ltd., *Suppt.*, 21.2.30, viii
Ewart Chainbelt Company, Ltd., *Suppt.*, 21.2.30, v

F

FIELDING and Platt, Ltd., *Suppt.*, 21.2.30, ii, iii, *and Two-page Plate*, Fig. VI.
Film Cooling Towers (1925), Ltd., *Suppt.*, 14.2.30, vii
Firth, Thos., and Sons, Ltd., 241

G

GENERAL Electric Company, *Suppt.*, 14.2.30, vi, vii
Goodwin, Barsby and Co., Ltd., *Suppt.*, 14.2.30, iv
Gresham and Craven, Ltd., *Suppt.*, 14.2.30, iii, iv

H

HADFIELDS, Ltd., *Suppt.*, 21.2.30, vi, vii
Heatly-Gresham Engineering Company, Ltd., *Suppt.*, 14.2.30, v
Hewittic Electric Company, Ltd., *Suppt.*, 21.2.30, v
Hollings and Guest, Ltd., *Suppt.*, 14.2.30, iv, v
Holmes, J. H., and Co., Ltd., *Suppt.*, 14.2.30, iii
Howard, J. and F., Ltd., *Suppt.*, 21.2.30, iii

M

MARSHALL, Sons and Co., Ltd., *Suppt.*, 14.2.30, i
Midland Saw and Tool Company, Ltd., 276 (Addendum), 337
Monel-Weir, Ltd., *Suppt.*, 14.2.30, i
Morris, Herbert, Ltd., *Suppt.*, 21.2.30, i

N

NATIONAL Gas Engine Company, Ltd., *Suppt.*, 21.2.30, i, *and Two-page Plate*, Fig. I.
Nobel Chemical Finishes, Ltd., and the Fredk. Crane Chemical Company, 242
Norris, Henty and Gardners, Ltd., *Suppt.*, 14.2.30, viii

P

PARKER, Winder and Achurch, Ltd., *Suppt.*, 21.2.30, vii, viii
Petters, Ltd., *Suppt.*, 21.2.30, iii, iv, *and Two-page Plate*, Fig. IV
Pneulec, Ltd., 212
Powell Brett, Ltd., *Suppt.*, 21.2.30, iii
Premier Electric Welding Company, Ltd., 240

R

RAPID Magnetting Machine Company, Ltd., *Suppt.*, 21.2.30, vii
Reyrolle, A., and Co., Ltd., *Suppt.*, 14.2.30, ii, iii
Royles, Ltd., *Suppt.*, 21.2.30, v
Ruston and Hornsby, Ltd., 240
Ruston-Bucyrus, Ltd., 240, 241

S

STEWARTS and Lloyds, Ltd., *Suppt.*, 21.2.30 vi

T

TANGYES, Ltd., 213, *and Two-page Plate*, Fig. V
Tilghman's Patent Sand Blast Company, Ltd., 276

V

VICKERS-ARMSTRONGS, Ltd., 276,, 277

W

WALLIS and Steevens, Ltd., 277

OTHER EXHIBITORS:

Allday, William, and Co., Ltd., Furnaces for Rivet Heating and Tool Hardening, &c., 277
Bell's Asbestos and Engineering Supplies, Ltd., "Graphoil," 277
British Oxygen Company, Ltd., Oxygen Cutting Machines, 277
Brown and Ward, Capstan Lathe, New Form, 277
Coleman Foundry Equipment Company, Ltd., Foundry Sand-throwing Machine, 277
Farrer, William E., Ltd., Cascade Distributor for Sewage Works, 277
Firth, Thos., and Sons, Ltd., Staybrite Steel, 278
Hands, John, and Sons, Ltd., Screw Presses, 278
Holden and Hunt, Electrical Chain-welding Equipment, New Spot Welder, 278
Ira Stephens, Ltd., "Bullets" for Clearing Condenser Tubes, 277
Lowmoor Iron Company, Lamp Bracket, Very Old, 277
Power, F. A., and Sons, Ltd., Tool for Strapping Packing Cases with Wire, 277
Rawlplug Company, Ltd., Holding-down Bolt for Machinery, 277
Rhodes, Joseph, and Sons, Ltd., Stamping Presses, New Type, 277
Roller Patents, Hoops and Wire Rope, 278
Royles, Ltd., Heater or Condenser, 277
Rylands Brothers, Ltd., Wire Galvanised by "Crapo" System, 277
Salter, George, and Co., Ltd., Waterless Gasholder, Spring Balances, &c., 278
Sturtevant Engineering Company, Ltd., Industrial Vacuum Cleaners, 277
Terry, Herbert, and Sons, Ltd., Springs, Clips, &c., 278
Toledo, Andrews, Ltd., Steel, Various Kinds, and Tool for Cutting Steel, 277
Westwood, A. E., Ltd., Force Feed Oil Cans, Oil Cabinet, 277

Subjects.

C

CHLORONOL Water Sterilisation Plant, Royles, Ltd., *Suppt.*, 21.3.30, v, vi
Cochran Vertical Boiler, 7ft. Diameter by 15ft. High, Cochranette Boiler, Cochran and Co. (Annan), Ltd., *Suppt.*, 14.2.30, ii
Combined Lighting and Compressing Set, Norris, Henty and Gardners, Ltd., viii
Conveyor, Vale Biflex Chain, Malleable Chains, Wheels, Buckets, Ewart Chainbelt Company, Ltd., *Suppt.*, 21.2.30, v
Cooling Towers, Models of, Film Cooling Towers (1925), Ltd., *Suppt.*, 14.2.30, vii
Crags-Plummer Adjustable Steel Pit Prop, Stewarts and Lloyds, Ltd., *Suppt.*, 21.2.30, vi
Crane, Petrol-electric Runabout, Herbert Morris, Ltd., *Suppt.*, 21.2.30, i

D

DROP Stampings, Powell Brett, Ltd., *Suppt.*, 21.2.30, iii

E

EJECTORS; Injectors; Live Steam Heating Injectors; Combined Heater and Injector, Gresham and Craven, Ltd., *Suppt.*, 14.2.30, iii, iv

Electrical Matters:

Birlec Furnace, Large; Standard Portable Electric Birlec Furnaces, Birmingham Electric Furnaces, Ltd., 214
Direct-current and Alternating-current Motors, Heavy-current Motor Generator Sets, Electrical Power Engineering Company, Ltd., *Suppt.*, 21.2.30, viii
Electric Furnace for Pottery, &c., R. M. Catterson Smith, *Suppt.*, 21.2.30, iv
Electric Generators; Arc-welding Equipments, and other Exhibits, Bull Motors, Ltd., 214
Electrical Restaurant, Large, Heating and Cooking Equipment, British Electrical and Allied Manufacturers' Association, *Suppt.*, 21.2.30, iv
Electric Water Heaters, Storage Type, Bulpitt and Sons, Ltd., *Suppt.*, 14.2.30, i
Furnaces, Electric; Muffle Furnace; High-temperature Steel-hardening Furnace; Steel Annealing and Case-hardening Furnace; Lead Melting Pot; Standard Electric Furnace; 30 and 80 Kilowatts Furnaces for Brass and Steel; Grünewald Electric Bright Annealing Plant; "Magnet" Electric Furnaces; Bright Annealing of Strip and Wire; Annealing Unit; Recuperating Trench, General Electric Company, *Suppt.*, 14.2.30, vi, vii
High-frequency Furnace, 7-kVA; Poking Machine; Melting Pot, 20-kVA; Air Heater, Electric Furnace Company, Ltd., *Suppt.*, 14.2.30, vii, viii
Motors and Control Gear; Motor Generators and "Fabroil" Pinions; Radial Drilling Machine with Vertical Spindle Motors; Worm-geared Motor Units, Vertical and Horizontal; Motor Starters and Controllers for Alternating and Direct Current; Oil-immersed Alternating-current Control Panel; Metal-clad Switch Gear, British Thomson-Houston Company, Ltd., *Suppt.*, 21.2.30, ii
Storage Batteries for Many Purposes; Stationary Batteries for Central Station Use, for Emergency Lighting of Theatres, Shops, &c.; High-tension and Low-tension Wireless Batteries; Portable Wireless Sets; Miners' Hand Lamps, &c., Chloride Electrical Storage Company, Ltd., *Suppt.*, 21.2.30, vii
Sub-station, Mercury Vapour Rectifier, for Direct-current Supply for Lighting and Power at British Fair, Birmingham, Hewittic Electric Company, Ltd., *Suppt.*, 21.2.30, v
Tubular Immersion Heating Units; Isolating Switches; A. Reyrolle and Co., Ltd., *Suppt.*, 14.2.30, ii, iii; Street Traffic Control Apparatus, Automatic, A. Reyrolle and Co., Ltd., and J. H. Holmes and Co., Ltd., *Suppt.*, 14.2.30, iii; "Castle" Direct-current Electric Welding Set, H. Holmes and Co., Ltd., *Suppt.*, 14.2.30, iii

Engines:

Oil Engines, Airless Injection, Light-weight, Single-acting; Conqueror Pumps, &c., W. H. Allen, Sons and Co., Ltd., 212, 213, *and Two-plate Supplement*, Fig. VIII
Heavy Oil Vertical Engine with Four Cylinders, 265 B.H.P., Davey, Paxman and Co., Ltd., *Suppt.*, 21.2.30, viii, *and Two-page Plate*, Fig. III
Oil Engine, 195 B.H.P., Three-cylinder, Cold-starting, Airless Injection; 65 B.H.P. per Cylinder Engine; 950-Watt Auto-Petter Light Plant; 5 B.H.P. Universal Type Hopper-cooled Engine, with Joint Ring for Cylinder Head, Petters, Ltd., *Suppt.*, 21.2.30, iv, *and Two-page Plate*, Fig. IV
Oil Engines, 220 B.H.P. Four-cylinder Compressorless; 82 B.H.P. Three-cylinder Compressorless, Crossley Brothers, Ltd., *Suppt.*, 21.2.30, i, *and Two-page Plate*, Fig. VII
Oil Engines for Heavy Fuel Oils, Paraffin and Petrol Fuels, 55 B.H.P. Unit; 76 B.H.P. Twin-cylinder Engine; "Unchokeable Pumps for Sewage, Gravel, &c., and Other Exhibits, Blackstone and Co., Ltd., 214, *and Two-page Plate*, Fig. II
Oil Engines, Low-pressure Cold-starting, 55 B.H.P.; Fuel Pumps and Airless Injection of Fuel, Fielding and Platt, Ltd., *Suppt.*, 21.2.30, ii, iii, *and Two-page Plate*, Fig. VI
Oil Engines, Twin-cylinder Cold-starting; Horizontal Oil Engine; Vertical Fuel Engine; 120-Ton Moulding Press, Tangyes Ltd., 213, *and Two-page Plate*, Fig. V
Engines Operating on Gas, Heavy Oil, Paraffin and Petrol; Large Horizontal Twin-cylinder Type; Single-cylinder Heavy Oil Engine; 11 B.H.P. Single-cylinder Oil Engine, National Gas Engine Company, *Suppt.*, 21.2.30, i, *and Two-page Plate*, Fig. I
Rational Petrol Engines; Vacuum Exhauster, Heatly-Gresham Engineering Company, Ltd., *Suppt.*, 14.2.30, iv, v

EXCAVATOR, Oil Engine Driven, Ruston-Bucyrus, Ltd., 240, 241

F

FINISHES of All Kinds, Lacquers, Enamels, Stoving Enamels, Necol Cracking Enamel; Lacquers for Spraying; Cranco Cellulose Enamels, &c., Nobel Chemical Finishes, Ltd., and the Fredk. Crane Chemical Company, 242

"Firth Insto," Hacksawing Machine; Saw Sharpeners; Engineers' Tools; Twist Drills; Milling Cutters; Reamers; "Die-hard"; High-speed Cutting Files; Firth Staybrite, Thos. Firth and Sons, Ltd., 241
Foundry Machines, High-speed, Swing-frame Grinder; Jarr Rollover Moulding Machine; Sand-mixing Machines, Pneulec, Ltd., 212
Foundry Sand Plant; Magnetic Drum and Pulley Type Separators; Chute Separators; Magnetic Clutch, &c., Rapid Magnetting Machine Company, Ltd., *Suppt.*, 21.2.30, vii
Foundry and Smithy Equipment, Geared Crane Ladles; Tilting Crucible Furnace; Roots Blowers; Centrifugal Fans; 3-Cwt. Pneumatic Forging Hammer for Belt Drive; Pneumatic Planishing Hammer; Riveting Hammers, &c., Alldays and Onions, Ltd., *Suppt.*, 14.2.30, ii

G

GRAVEL-WASHING Plant, Portable; Brick-breaker, Petrol Engine Driven, Goodwin, Barsby and Co., Ltd., *Suppt.*, 14.2.30, iv
Guillotine Shearing Machine; Planishing Hammer; Gear Power Press; Brooks (Oldbury), Ltd., 241, 242

H

HARDENING of Metal Parts by the Cyanide Process, Case-hardening of Metal Parts, Cassel Cyanide Company, Ltd., 242
Hornsby Oil Installation, The First; 10 B.H.P. Petrol-paraffin; 22 B.H.P. Cold-starting Airless Injection Engine; Three-cylinder 67 B.H.P. Vertical Airless Injection Engine; Combined Oil Engine and Starting Air Compressor; Road Roller, Oil Engine Driven, Ruston and Hornsby, Ltd., 240
Hot-plate Press; Hydraulic Girder Frame Press; Hydraulic Pumps; Accumulator, &c., Hollings and Guest, Ltd., *Suppt.*, 14.2.30, iv, v

I

INDUSTRIAL Oil Burners; Oil-fired Furnace, Parker, Winder and Achurch, Ltd. *Suppt.*, 21.2.30, vii, viii

L

LAWN Mowers, Petrol-driven, Special Transmission Gear, &c., Dennis Brothers, Ltd., *Suppt.*, 21.2.30, iv
Locomotives, Small Petrol; Road-making Equipment; Abattoir Fittings, J. and F. Howard, Ltd., *Suppt.*, 21.2.30, iii

M

MACHINE Tools, Small; Machine Vices, Chucks, Tapping and Drilling Attachments; Turrets, Taps, and Dies; Six-spindle Horizontal Drilling Machine, J. Ackworthie, Ltd., *Suppt.*, 21.2.30, vii
"Manumit" Roller, Petrol-driven; Road Roller, Oil Engine Driven; Diesel and Semi-Diesel Oil Engines; Diesel Cold-starting Horizontal Oil Engines; Concrete Mixer, Marshall, Sons and Co., Ltd., *Suppt.*, 14.2.30, i, ii
Monel Metal; Malleable Nickel; "Nickel-Chromium-Iron"; "Nimol" New Cast Iron Alloy; Pumps, Valves, &c., Monel-Weir, Ltd., *Suppt.*, 14.2.30, i
Motor-driven Road Roller, Wallis and Steevens, Ltd., 277

N

NEW Model "Midsaw" Universal Woodworking Machine, Midland Saw and Tool Company, Ltd., 276, 337
New Super-type Elliot Woodworking Machine, Dominion Machinery Company, Ltd., 276

P

PACKING Machine; Air Conditioning Plant, Davidson and Co., Ltd., 242
Portable Painting Plants, Low-pressure Spray Gun and Automatic Paint Regulator, Aerograph Company, Ltd., *Suppt.*, 14.2.30, viii
P.M.G. Yellow Metal, Vickers-Armstrongs, Ltd., 276, 277

S

SAND Blast Machine, Tilghman's Patent Sand Blast Company, Ltd., 276
Single Operator Welding Machines, Electrically Driven, Also by Four-cylinder Dorman Engine; Welding Transformers with Choke Coil Regulators; Two-operator Motor Generator Plant; "Premag" Process, Oxy-acetylene for Welding Copper, Premier Electric Welding Company, Ltd., 240
Steels, Heat-resisting, and Corrosion-resisting; "Hecla A T V" Special Steel for Impulse and Reaction Turbine Bladings; "Resista H Y" Non-magnetic Steel; "Hecla 18" Hollow Mining Drill Steel, Hadfields, Ltd., *Suppt.*, 21.2.30, vii

Miscellaneous Articles.

Ambassador Bridge, 22
Khartoum Omdurman Bridge, 22 (*Supplement, January 3rd*, 1930)
Royal Albert Bridge, Saltash, Reconstruction of the Land Spans (*Supplement, January 3rd*, 1930)

ELECTRICAL ENGINEERING IN 1929, 7–10, 36–39
No. 1 in January 3rd, 1930, Pages 7–10:
Electricity Schemes: Mid-East, North-East, South-East England and Central Scotland, 8
Generating Plant: Large Installations at Home, for the Colonies and Foreign Countries; Steam Turbine Developments at Fraser and Chalmers Engineering Works, 9

ANNUAL ARTICLES (*continued*):
ELECTRICAL ENGINEERING IN 1929 (*cont.*)
B.T.H. Alternator with Fan Driven from Main Shaft, 8, 9
Power Stations, New: Hams Hall, Kearsley, Portishead and Slacks Valley, 8 (*Supplement, January 3rd*, 1930); Deptford West, Morden, and St. George's Bay, Athens, 8, 9
Rural Electrification, Increased Use of Electricity in Agriculture, 8
Transformers, Large, for Tap Changing Under Load, Great Demand for, 9
Transformers, Very Small, for Use in Connection with Rural Electrification Schemes, 9
High-voltage Laboratory of Siemens Brothers and Co., Ltd., Woolwich, 9
No. 2 in January 10th, 1930, Pages 36–39:
B.T.H. New Types Unbreakable Resistances and Controllers, 37
Electric Traction: G.I.P. Main Line Electrification: Southern Railway Motor and Trailer Coaches; Central Argentine Motor and Trailer Coaches, 37
Tramway Cars and Equipment, Numerous Orders for these and also for Electric Rail Equipment for Home and Abroad, 37
Hydro-electric Plant: English Electric Company's Alternators for New Zealand; Vertical Reaction Turbines for the Grampian Scheme, 36
Nigerian and Tasmanian Important Orders, Alternators for the Perak River, 36
Research: Acoustic Measurement and Electro-acoustic Problems, 37; Electrical Research Association's Work, 37; International Agreement on Figures Representing Steam Properties, Successful Conference, 37; Noise Emitted by Electrical and Mechanical Machines, Research on, 37; Phenomena of Circuit Breaking, 37; Photo-electric Cell, New Type Developed at Wembley; Testing Overhead Transmission Line Towers, Special Plant Erected, 37
Switchgear, 36: Important Installation at Portishead Power Station, Metropolitan-Vickers Company, 36; B.T.H. High-voltage Apparatus for Sub-stations of Central Electricity Board; Metal-clad Switchgear for Ironbridge Power Station, 36; General Electric Company, Rotary Type Isolating Link; Metal-clad and other Types of G.E.C. Switchgear, 36
Wireless Communication: Imperial Beam Wireless Transmission; International Committee for Radio-electric Communications at The Hague, 38; Wireless Improvement in all Classes of Equipment, 38; Broadcasting from Brookman's Park Station; Board Ship Independent Duplex Wireless Service; Post Office Work, Continental Wireless Traffic; London and New York; Four Two-way Telephone Channels in Regular Operation, 38; Dual Wave Method of Working, 38, 39

HARBOURS AND WATERWAYS IN 1929, 66
The United Kingdom:
London, Port of, 66 (*Supplement, January 3rd*, 1930)
Bristol Channel and South Wales Ports, 66
Mersey and the Manchester Ship Canal, 66
North-East Coast and Humber Ports, 66
Southampton, Cowes and Newhaven, 66
Scotland, 66

LOCOMOTIVES OF 1929, 2
Beyer-Garratt Locomotive for South African Railways, Beyer, Peacock and Co., Ltd., 4 (*Supplement, January 3rd*, 1930)
(Erratum), Cockburns, Ltd., 58
German State Railways, Diesel-Compressed Air Locomotive, 4 (*Supplement, January 3rd*, 1930)
Kitson-Still Locomotive, 3
L.M.S. Railway, Double-pressure Locomotive, "Fury," Built by North British Locomotive Company, Ltd., 3, 4 (*Supplement, January 3rd*, 1930)
L.N.E. Railway, High-pressure, Four-cylinder Compound Locomotive, 2, 3 (*Supplement, January 3rd*, 1930); Boiler, New Type, Mr. Harold Yarrow and Mr. Gresley, 2
Companies' Engines:
Great Western Railway, 4–6–0 "Hall" Class Two-cylinder Engines; Mixed Traffic Outside Cylinder Engines, &c., 4
L.M.S. Railway 0–8–0 Goods Engine, 4
Southern Railway, "Lord Nelson" Class Engines; Three-cylinder Shunting Tank Engines 0–8–0; 2–6–0 Two-cylinder Passenger Engines, 4

ANNUAL ARTICLES (*continued*):
LOCOMOTIVES OF 1929 (*continued*):
Some Makers' Engines:
Armstrong, Sir W. G., and Co., Ltd., Broad-gauge Goods Locomotive for Madras and Southern Mahratta Railway, 4 (*Supplement, January 3rd*, 1930); Garratt Two-cylinder Locomotive for Brazil, 5
Avonside Engine Company, Ltd., Six-coupled Wheels Tank Engine, 5; Four-cylinder Petrol Engine, 5
Bagnall, W. G., Ltd., Saddle Tank Shunting Engines for Peruvian Corporation, Ltd., 5
Beyer, Peacock and Co., Ltd., "Mikado" 2–8–2 Engines and Very Large Engines for Buenos Aires and Pacific Railway, and for Other Railways Abroad, 4
Colombian Railways, Three-cylinder, Narrow-gauge Locomotives Constructed in Germany, 6
Hawthorn, Leslie and Co., Ltd., Antofagasta and Bolivia Railway, Metre-gauge Tank Engine, 4; Large Fireless Engine for Slacks Valley Power Station, 4
Hudswell, Clarke and Co., Ltd., Saddle Tank Engine for Pacasmayo Railway, 5; Battery Electric Locomotives, 5
Hunslet Engine Company, Ltd., Causes of Curtailed Orders, 6
Kitson and Co., Ltd., Kitson-Meyer Engine for Cundinamarca Railway, 4; Shunting Tank Engines for San Paulo Railway, 4
North British Locomotive Company, Ltd., Schmidt Two-pressure Engine for L.M.S., 3, 5; De Glehn Compound Engine for Bengal-Nagpur Railway, 5; Three-cylinder Engines for Federated Malay States, 6
Vulcan Foundry, Ltd., Engines for Indian State Railways, 5; Mechanical Ports Electric Goods Locomotives for Great Indian Peninsula Railway, 5

MOTOR SHIPS AND MARINE OIL ENGINES IN 1929, 24–28, 42–44
British-built Motor Ships and Marine Oil Engines, 1929, Tables I. and II., 25
Large and Intermediate Motor Passenger Liners:
Adelaide Steamship Company's Passenger Liner "Manunda," 26
"Aorangi," 17,500-Ton Quadruple-screw Motor Liner, 26
Bibby Motor Liner "Staffordshire," 24, 26
"Dunbar Castle" Launched, Harland and Wolff Ltd., 26
"Llangibby Castle," 10,000-Ton Union-Castle Liner, 26 (*Supplement, January 3rd*, 1930)
Motor Passenger Liners Completed, with Refrigerated Cargo Spaces for Meat Carrying, Harland and Wolff, 26; Other Vessels Completed, "Highland Chieftain" and "Highland Brigade," 126; Other Vessels Launched, "Highland Hope," and "Highland Princess," 26
Prince Line, Ltd., Motor Ship "Southern Prince" and Three Other 10,900-Ton Passenger and Cargo Liners, 26 (*Supplement, January 3rd*, 1930); "Eastern Prince," "Western Prince," Napier and Miller, Ltd.; "Cingalese Prince" and "Siamese Prince," Blythswood Shipbuilding Company, Ltd., 26
"Rangitiki," "Rangitata," and "Rangitane," Each with Two Sets Single-acting Two-stroke Brown-Sulzer Engines, each with Five Cylinders, John Brown and Co., Ltd., for New Zealand Shipping Company, Ltd., 26, 27 (*Supplement, January 3rd*, 1930)
"Winchester Castle," 20,000-Ton Liner Launched from Harland and Wolff's Belfast Yard, 26
Fast Cargo Ships for Colonial and Other Services, 26:
"Agamemnon" and "Menestheus," Holt Blue Funnel Liners, 26
Court Line, Ltd., Motor Cargo Ship Fleet, Three Additional 16-Knot Ships, 26
Denny-built Vessels for Australian Service, "Australind" and "Armadale"; Harland and Wolff, Ltd., "Westralia" for Melbourne, 26
"Penrith Castle" and "Thurland Castle," 2250 S.H.P. Six-cylinder, North-Eastern-Werkspoor Engine, 26, 27 (*Supplement, January 3rd*, 1930)
"Villanger," One of Three 12½-Knot Motor Cargo Ships, Sir W. G. Armstrong, Whitworth and Co., Ltd., 24, 26
Cross-Channel Motor Ships, 27:
"Esbjerg," North Sea Cross-Channel Vessel for Service Between Harwich and Esbjerg, 28
"Ulster Monarch," First of Three British-owned and Built Cross-Channel Motor Vessels for Ulster Imperial Line, 26

ANNUAL ARTICLES (*continued*):
MOTOR SHIPS AND MARINE OIL ENGINES IN 1929 (*continued*):
Motor Tanker Construction, 28:
Types of Propelling Machinery, 28, 42
Blower, Exhaust Gas Turbine Driven, Brown-Boveri, 43
Blower Rotary Scavenger, Burmeister and Wain, 43
Blower, Supercharging, for Richardsons-Westgarth Double-acting Engine, 42, 43
Blower, Supercharging and Scavenging, Powerplus, Ltd., 43
Methods of Scavenging and Supercharging, 43
Scavenging System, Werkspoor, 43
"Britannic," 27,000-Ton Liner, Launched, 26; 10,000 S.H.P. Harland-B. & W. Four-stroke Double-acting Engine, 28
British Two-stroke Double-acting Engine, Richardsons-Westgarth, 42
Brown-Sulzer 9300 S.H.P. Five-cylinder Oil Engine, 26, 27; Ten-cylinder Engine, 7040 S.H.P., Sulzer Brothers, 44; Two-stroke Sulzer Type Engines, 26, 27, 42
Double-acting Engine, 1250 S.H.P. Richardsons-Westgarth, 42
Doxford Opposed-piston 2000 S.H.P. Engine, 42
Four-stroke "Werkspoor" Type Engines, 26, 27, 42; North-Eastern-Werkspoor 2250 S.H.P. Six-cylinder Engine, 26, 27
Harland-B. & W. 10,000 S.H.P. Four-stroke Double-acting Engine, 28

NAVAL CONSTRUCTION IN 1929, 6
Great Britain: Ships Cancelled or Postponed, 6; Ships Launched, Cruisers—"Dorsetshire," "Exeter," "York," 6; Sloops, "Bridgewater," "Sandwich"; Flotilla Leaders, "Codrington," "Keith," 6; Destroyers, "Acasta," "Achates," "Active," "Antelope," "Anthony," "Ardent," "Arrow," 6; Submarines, Seven "O" and "P" Boats, 6; Auxiliaries Completed, H.M.S. "Medway," Submarine Depôt and Repair Ship, H.M.S. Turbine Steamer Repair Ship "Resource," 6
France: "Foch," Cruiser; "Commandant Teste" Seaplane Carrier; "Pluton" Cruiser Minelayer; Others, Destroyers and Submarines; Submarine Cruiser "Surcouf," Largest Submersible Yet Built, 7
Germany: "Leipzig," Cruiser Launched; "Ersatz Preussen," Possible Outcome of Her Design, 7
Italy: Four 10,000-Ton Cruisers Proceeded with, "Zara," Fiume," "Bolzano," "Gorizia"; Destroyers, Several Large and Small Launched, 7
Japan: Four Large Cruisers Completed; Others in Hand; Aircraft Carrier Ordered; Several Destroyers, Submarine, and Anti-submarine Net Layers Launched, 7
United States: Five Cruisers Launched; Two Large Submarines Launched; Eight Battleships Reconstructed; Five Others in Hand, 6
Other Navies: British Firms' Contracts for Ships for Argentine and Chili; Italian Contracts for Argentine; "Salamis" Greek Battleship Begun at Hamburg Fifteen Years Ago, to be Completed; Turkish Fleet Expansion, 7

RAILWAYS IN 1929, 80
Great Western:
Appledore Viaduct, 81
Bristol, 81
Paddington, 81
Cardiff Docks, 81
Newport Docks, 81
Newport, Mon, 81
Old Hill Tunnel, 81
Penarth Dock and Barry Docks, 81
Ponsanooth Viaduct, 81
Royal Albert Bridge, 81
St. Erth and Marazion, 81
Severn Tunnel, 81
Swansea Docks, 81
Tonteg and Treforest, 81
London, Midland and Scottish, 80:
London, Broad-street, 80
London, Tilbury, 80
Beeston, 80
Edge Hill and Speke Junction, 80
Fleetwood, 80
Goole, 80
Longbridge and Barnt Green Widening, 80
Manchester, 80
Northampton, Castle Station, 80
Nottinghamshire, New Railways and Extensions in, 80
Rossington Main Colliery Branch, 80
London and North-Eastern, 80:
King's Cross, 80
Bedlington Viaduct, 81
Clacton-on-Sea, 80
Doncaster, Branch Line at, 80
Hattersley Tunnels, 80
Heaton, 81

ANNUAL ARTICLES (*continued*):

RAILWAYS IN 1929 (*continued*):

London and North-Eastern (*continued*):

Hull and Barnsley Railway, 80
Newcastle, 80
Tayport Branch, 81
Walton-on-the-Naze Branch, 80
Whitemoor Yard, March, 80
Bridge Work in the Scottish Area, 81

London, Midland and Scottish and London and North-Eastern Joint, 81:

Mid-Nottinghamshire Railway, 81
Electrification of the Manchester South Junction and Altrincham, 81

Southern:

Bridges Between Faversham and Ramsgate, 81
Dover, 81
Electrification, 81
Epsom, 81
Hastings: St. Leonards, West Marina, 81
Isle of Wight, 81
Lewisham Loops, Kent House and Beckenham Junction Widening, 81
Newhaven Harbour, 81
New Loop at Minster, 81
Signalling in the London Bridge Area, 81
Wimbledon, 81
Wimbledon and Sutton Railway, 81

Mumbles Railway, 81

SANITARY ENGINEERING IN 1929, 70

Introduction, 70
London Main Drainage, 70
Abbey Mills Pumping Station, Reorganisation of Beam Engine-house, 70
Northern Outfall Works, Beckton, Reconstruction of Jetty, 70
Additional Purification Plant, 70

Birmingham, 70
Hockley Brook Improvement, 70
Improvement to the Rivers Tame and Rea, 70
Tame Valley Sewer, 70
East Birmingham Sewerage, 70
Sewerage of Perry Barr, 70
Unemployment Relief Works, 70

Blackpool, 70
Bradford, 70
Brighton, 70
Burnley, 71
Chatham and Rochester, 71
Coventry, 71
Doncaster, 71
Ipswich, 71
Leeds, 71
Leicester, 71
Lytham St. Annes, 71
Manchester, 71
Nottingham, 71
Sheffield, 71
Southend, 71
Stoke-on-Trent, 71
Wolverhampton, 71
Works Completed, in Hand, or in Contemplation, 72
Applications for Loans, 72
Pollution of River Research, 72
Paris, 72

STEAMSHIP AND STEAM MARINE ENGINEERING IN 1929, 10–14, 52–54

Tonnage Output of the Year Good, 10
Some Large Liners of 1929, 10
C.G.T. 5000-Ton Liner "President Dal Piaz," Swan, Hunter and Wigham Richardson, Ltd., 11
C.P.R. Liner "Empress of Canada," Re-engined, 10
"Duchess of Richmond" and "Duchess of York," Canadian Pacific Liners, 10 (*Supplement, January 3rd*, 1930)
Fish-treating Steamship "Seapro," 404, 405 (*Two-page Supplement, April 11th*, 1930)
Holland-America Liner "Statendam," 10 (*Supplement, January 3rd*, 1930)
Holland-America Liner "Statendam," Service Results of, Ir. Dr. W. M. Meijer, 432
North German Lloyd Liner "Bremen," 10 (*Supplement, January 3rd*, 1930)
North German Lloyd Liner, 50,000-Ton, "Europa," 347, 352
Orient Liner "Orontes," 10

Whaling Factory Ships and Whaling Research, "Kosmos" and "Vikingen," 11, 12
Royal Research Ship "Discovery II.," 11, 12

Cross-Channel and North Sea Steamers:

Dover-Calais Steamer "Canterbury," 11, 12
Harwich-Hook of Holland Steamer "Vienna," 11, 12, 13
London and North-Eastern Railway Company, Launch of the "Prague," and soon to Launch also the "Amsterdam" to Join the "Vienna" for same Service, 11
Swedish-Lloyd Service Steamers "Suecia" and "Britannia," Swan, Hunter and Wigham Richardson, 13

Cargo Steamers of 1929:

Cargo Vessels for Great Lakes of Canada, 13
Colliers, Self-trimming, "Kaimiro" and "Karepo" for Union Steamship Company of New Zealand, 13
Pulverised Coal-burning Collier s.s. "Berwindlea," 53

Main and Auxiliary Electric Propulsion:

P. and O. Liner "Mooltan," Turbo-electric Machinery by British Thomson-Houston Company, 13
P. and O. Liner "Viceroy of India," Impelled by Turbo-electric Machinery, Alexander Stephen and Sons, Ltd., 13 (*Supplement, January 3rd*, 1930)
Turbo-electric Equipments to be Supplied by both B.T.H. Company and Metropolitan-Vickers Electrical Company, 13

ANNUAL ARTICLES (*continued*):

STEAMSHIPS AND STEAM MARINE ENGINEERING IN 1929 (*continued*):

Some Dredgers of 1929:

Dredging and Rock-breaking Plants for Home and Foreign Harbour Use, "Gamusa" and "Khartita" Dipper Dredgers for Work on Dam near Khartoum, 13, 14
Various other Dredgers for Hull and also for Brazil and New Zealand, 14

Types of Propelling Machinery, 52
Geared Turbine Installations, 52
Geared Turbine Installations, Exhaust, 53
Lentz-Marine Engine, 2200 I.H.P., 52, 53
Reciprocating Steam Engine, 52
Turbo-electric Propulsion, 52

BOILERS, MARINE, OF 1929, 52, 53

550 lb. Pressure Babcock-Wilcox Water-tube Type, 52, 53
210 lb. Pressure Hawthorn-Armstrong Water-tube Type, 52, 53
Howdon High-pressure Boiler, 53
1200 lb. Pressure Yarrow Experimental, 52, 53

"Brand" Powdered Fuel Equipment to Ropner Line Cargo Ship "Swiftpool," 54
Pulverised Coal-burning Progress, Successful Fitting of Clarke-Chapman Equipment to s.s. "Berwindlea," 53
Yarrow Pulverised Fuel System, Experiments on the Liner "Amarapoora," 54
Superheating and Condenser Progress, 54

WATER SUPPLY IN 1929, 22, 39:

Metropolitan Water Board:

Works in Connection with the Supply from Queen Mary Reservoir at Littleton, 23
New Filtration Plant at Kempton Park, 23
Works for Improvement of Supply North of the Thames, 23
Works in Connection with Supply to the Board's Southern, Western and Kent Districts, 23

Batley, Brownhill Reservoir Practically Completed, 23
Birmingham, Bartley Reservoir, Bradford, 39; (Erratum), 92
Chelmsford, 39
Coventry, 39
Derwent Valley, 39
Glasgow, 39
Liverpool, 39
The Aqueduct; Oswestry Filter Beds; Vyrnwy Supply, the Aber Tunnel, 39
Londonderry, 40
Manchester, 40
Mexborough, 40
Perth, 40
Rugby, 40
Sheffield, Burbage Reservoir, Ewden Valley Reservoirs, 40
Skegness, 40
Wakefield, 40
Works Completed, in Progress, or in Contemplation, 40
Bore-holes, 41
Athens, 41
Heightening the Aswan Dam, 41
Canada, 41
France, 41
Nag Hammadi Barrage, 41
Nile Water Regulation Agreement, 42
Other Places Abroad, 41; (Letter), 349

ARC Welded Steel Structures in America, 668
Arc Welding at a Large Boiler Works, 344
Area Gas Supply Committee, 602
Artesian Well at Slough, Noteworthy, C. Isler and Co., Ltd., 542

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:

Association, British Waterworks:

Annual General Meeting at Liverpool, Programme, 612

Association, Diesel Engine Users:

Report on Heavy Oil Engines, 280

Association, Incorporated Municipal Electrical:

Annual Convention, 606, 639
Annual General Meeting, 640
Annual Dinner, 640
Presidential Address, J. K. Brydges, 606
Chatfield, Alderman R. S., Paper, 606
Pulverised Fuel Firing as Affecting Boiler-house Operation, G. H. Lake, 607, 639

Association, Manchester, of Engineers:

Electrical Distribution in Manchester, H. C. Lamb, 224
Engineering in the Gas Industry, John W. Curtis, 265
Machine Tools from the Manufacturing User's Point of View, Herbert C. Armitage, 333
Marine-Oil Engine Installations, J. Calderwood, 386

Institute of British Foundrymen:

Twenty-seventh Annual Convention, 583, 683, 721
Presidential Address, Fred. P. Wilson, 683
Programme, 583
List of Papers, 583

Institute of Fuel:

Cracking of Petroleum Oils and Low-temperature Coal Tars, W. H. Jones, 413
Smoke Prevention, Factors Affecting the Problem, Professor W. E. Gibbs, 311

Institute, Iron and Steel:

Annual Meeting, Programme, List of Papers, 378, 516, 537
Annual Dinner, 539
Autumn Meeting at Prague, Programme, 168
Alloys of Iron with Silicon, Messrs. Haughton and Becker, 539
Alloys for Use at High Temperatures, Messrs. Rosenhain, Jenkins, Tapsell, Austin, and Ross, 538

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institute, Iron and Steel (*continued*):

Carburising and Graphitising Reactions Between Iron-carbon Alloys, Carbon Monoxide and Carbon Dioxide, Dr. Becker, 539
Chromium-copper Structural Steels, J. A. Jones, 539
Developments in Fuel Economy at Skinningrove, F. Bainbridge, 517
Effect of Melting Conditions on the Microstructure and Mechanical Strength of Grey Cast Irons containing Various Amounts of Carbon and Silicon, Messrs. Norbury and Morgan, 539
Experimental Inquiry into the Interaction of Gases and Ore in the Blast-furnace, Professor W. A. Bone, Drs. L. Reeve and H. L. Saunders, 516
Metallography of Some Ancient Egyptian Implements, Sir H. C. H. Carpenter and Dr. J. M. Robertson, 538
Presentation of Two Bessemer Medals, 516
Properties of Some Steels Containing Chromium, Messrs. Page and Partridge, 539
Single Sheet or Thin Pack Normalising, &c., R. Whitfield, 537
Tin and Sheet Mill Rolls, &c., E. R. Mort, 537

Institute of Marine Engineers:

Water-tube Boilers for Merchant Ships, Engineer Rear-Admiral W. M. Whayman, 86

Institute of Metals:

Twenty-second Annual General Meeting, 134, 302, 345; Programme, List of Papers, May Lecture, 134, 302
Annual Report, 302
Annual Dinner, 303
General Meeting, 294, 302, 319, 320, 321, 345, 382
Presidential Address by R. Seligman, 294, 295
Aluminium Brasses, R. Genders, 346
Atmospheric Action and Fatigue in Lead, Professor Bernard P. Haigh and B. Jones, 383
Cast Alloys and Effect of Turbulence Due to Gases, R. Genders, 321
Composition of Eutectics, Dr. D. Stockdale, 320
Copper Ingots, &c., N. P. Allen, 320
Diffusion of Zinc in Copper Crystals, Miss C. F. Elam, 346
Early Use of Metals, Dr. T. A. Rickard, 319
Effect of Phosphorus in Copper, Professor D. Hanson and Others, 345
Electro-deposited Contings, Protective Value of, L. Davies and L. Wright, 382
Gases in Copper, W. E. Prytherch, 320
Influence of Technique on Research, Twentieth May Lecture, Major F. A. Freeth, 541
Metallic Magnesium, W. R. D. Jones, 383
Unsoundness in Bronze Castings, E. J. Daniels, 320
Zinc-base Die-casting Alloys, R. Lancaster and J. G. Berry, 382

Institute of Physics:

Physical Research and Wireless, 611
Presidential Address, Dr. W. H. Eccles, 611

Institute of Transport:

Congress and Summer Meeting at Glasgow, 584
Programme, 584

Institution of Automobile Engineers:

Relative Safety of Mild and High-tensile Alloy Steels under Alternating and Pulsating Stresses, Bernard P. Haigh, 238, 262, 304

Institution of Chemical Engineers:

Eighth Annual Meeting, Annual Report, 413
Presidential Address, J. Arthur Reavell, 413
High-pressure Equipment of the Chemical Research Laboratory, Teddington, H. Tongue, 413
Pulverised Fuel, J. T. Dunn and B. Moore, 413

Institution of Civil Engineers:

April Examinations, 1930, Pass List (Interim), 587
October Examinations, 1929, Pass List, 89
Aeronautical Progress, 1914–1930, James Forrest Lecture, Professor R. V. Southwell, 512
Conversazione, 662

Institution of Electrical Engineers:

Batteries and their Use, 265
Breaking Performance of High-power Switchgear and a New Form of Quenched Arc Switch, L. C. Grant, 132
Conversazione, Annual, 695
High-tension Distribution, G. V. Twiss, 186
High-tension Sub-station Switchgear, A. F. Harmer, 431
Jet-wave Rectifier, Professor Jul Hartmann, 218, 221–223
Recent Developments in the Protection of Three-phase Transmission Lines and Feeders, T. W. Ross and H. C. Bell, 138, 141, 142
Scholarships in Electrical Engineering, 574
Shannon Hydro-electric Power Undertaking, 634, 638
Summer Meeting, 638, 653–656, 660
Visits to Fleet-street Transformer Station, Dublin; Inchicore Sub-station; Belfast Power Station; Harland and Wolff's Shipyard; Sirocco Engineering Works, Davidson and Co., 654, 655, 660

Institutions of Engineers and Shipbuilders:

Joint Summer Meeting in Holland, 695

Institution of Gas Engineers:

Conference, 528
Programme, 529

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Mechanical Engineers:

Annual General Meeting, 235
Long-range Distribution of Steam, Francis Carnegie, 484
Progress in Marine Engineering, Thomas Lowe Gray Lecture, Engineer Vice-Admiral R. W. Skelton, 55
Steam Nozzles Research, Final Report, 235, 264; (Letters), 270, 324
Strength and Design of Fusion Welds for Unfired Vessels, L. W. Schuster, 289, 308
"Wood" Steam Generator, General Operation Experiences with the First, E. Watson Smyth, 127, 142–144, 170, 194, 195

GLASGOW AND WEST OF SCOTLAND BRANCH:

Local Summer Meeting, Series of Work Visits, 611

GRADUATES' SECTION, LONDON:

Annual Lecture, Dinner, 331

NORTH-WESTERN BRANCH:

Fusion Welds for Unfired Pressure Vessels, 328
Long-range Distribution of Steam, Francis Carnegie, 485
Operating Results with the Recent Extensions at Barton Power Station, H. L. Guy and H. C. Lamb, 374–378, 410, 414–416
Protective Coatings for Iron and Steel, E. O. Jones, 75
Steam Nozzles Research Committee, Final Report, 264
"Wood" Steam Generator, Experiences with the First, E. Watson Smyth, 157, 158

Institution of Mining Engineers:

Ninety-first General Meeting at Birmingham, Programme, 658

Institution of Municipal and County Engineers:

Annual General Meeting, 581
Programme, 581

Institution of Naval Architects:

Annual Meeting, 359, 401, 425, 452; Programme, 359; Annual Dinner, 359, 403; List of Papers, 359
Annual Report of the Council for 1929, 401
Presidential Address, 401
Behaviour of Two Passenger Vessels during a Voyage to and from Australia, Dr. B. C. Laws, 452, 469
By-law Alteration, Inclusion of Airships and Seaplanes, 453
Causes and Prevention of Vibration in Motor Ships, Robert Sulzer, 453, 468
Experiments on the Resistance and Form of Towed Barges, G. S. Baker and Miss E. M. Keary, 497
Materials Used for Naval Engineering Purposes, Engineer-Captain J. Hope Harrison, R.N., 425, 440
On the Final State of a Gas Discharged from a Reservoir into a Space under Constant Pressure, Colonel Modugno, R.I.N., 452
Safety of Life at Sea, Sir Westcott S. Abell and Mr. A. J. Daniel, 402
Sea Trials of Italian Flotilla Leaders, Lieut.-Colonel F. Dondona, 496, 499
Service Results of the Holland-America Liner "Statendam," Ir. Dr. W. M. Meijer, 426, 432
Ship Wave Resistance, Some Further Comparisons of Mathematical Theory and Experiment Result, W. C. S. Wigley, 497
Stability of a Vessel with a List, F. H. Alexander, 452
Stress Distribution in Notched Beams, Professor Coker and Mr. Coleman, 452
Vibration of Ships, Dr. J. Lockwood Taylor, 453
Summer Meeting at Liverpool, 611
Provisional Programme, 611

Institution, North-East Coast, of Engineers and Shipbuilders:

High-pressure Steam for Marine Work, Stanley S. Cook, 186

Institution, Royal, of Great Britain:

Lectures During Before-Easter Session, 76
Metal Crystal, Sir Harold Carpenter, 641
Transmutation of Matter, Sir Ernest Rutherford, 387

Institution of Water Engineers:

Thirty-fifth Summer General Meeting, Headquarters, Programme, List of Papers, 542
Presidential Address, Henry E. Stilgoe, 607

Society, Royal:

Conversazione, 550

Society, Royal Aeronautical:

Wilbur Wright Memorial Lecture, Eighteenth, Development and Progress of the Aero-engine, H. R. Ricardo, F.R.S., 628–630

ATMOSPHERIC Action and Fatigue in Lead, Professor Bernard P. Haigh and B. Jones, 383
Atmospheric Pollution in 1928–1929, John B. C. Kershaw, 180, 181
Australian Imports of Machinery, 139
Automatic Sewage Lifting Plant, 224
Automatic Sub-stations for Japan, English Electric Company, Ltd., 322
Automatic—*see also* Ships
Axle, Built-up—*see* Railway Locomotives

B

BAINBRIDGE, F., Developments in Fuel Economy at Skinningrove, 517
Baker, G. S., and Miss E. M. Keary, Resistance and Form of Towed Barges, 497
Balancing Machine, Japanese, 110
Beauharnois Power Canal, 133
Bedford Rural Electrification Scheme, 236
Beet—*see* Treatment

Bengtson, Captain Daniel, Improved Searchlight for Air Defence, 638
Bitumen Consistency Testing Apparatus, Haigh and West Automatic Electric Penetrometer, 405
Berlin—*see* World Power

BOILERS:
600 lb. per Square Inch Boiler Installation, Design and Results of, William Nithsdale, 354, 356, 385, 386
Boiler Plant, Availability Factor of, 79
Duplex Thimble-Tube Boiler for Motor Ships, Clarkson Thimble-Tube Boiler Company, Ltd., 333
History of Boiler Inspection, William Ingham, 86
Largest Boilers in the World, Combustion Engineering Corporation, 140, 141
Marine Steam Boiler, John I. Thornycroft and Co., Ltd., 696
Tests on Scotch Boilers Fired with Powdered Fuel, 223
Water-tube Boilers for Merchant Ships, Admiral W. M. Whayman, 86

BONE, Professor W. A., Drs. L. Reeve and H. L. Saunders, Blast-furnace Research, 516
Books of Reference, 131, 250, 334, 518, 551, 612
Brydges, J. K., Presidential Address, 606

BRIDGES:
See also Annual Articles
Charing Cross and Waterloo Bridges, 236
Concrete Highway Bridge, Victoria, Australia, 252
Howrah Bridge, Calcutta, Proposed New, 152
Miyoshi Bridge at a Canal Junction, 297
Montreal Harbour Bridge Over the St. Lawrence River, 676–678, 705–707, 714
Newcastle–Gateshead New Road Bridge, 95 (*Two-page Supplement, January 24th*, 1930)

Tokio, Post-earthquake Bridges, 295–297
Wearmouth Bridge, Sunderland, New, Geoffrey L. Groves, 332

BRITISH ENGINEERING STANDARDS ASSOCIATION:

Specifications:
Aluminium and Steel-cored Aluminium Conductors, 116
Brass Tubes and Screwed Glands for Condensers, 528
Components of Optical Projection Apparatus, 528
Electric Motors and Generators for Mines and Miners' Handlamp Bulbs, 612
Electricity Meters, 169
Flameproof Air-break Switches and Circuit Breakers, 667
Hard-drawn Copper Solid and Stranded Circular Conductors for Overhead Power Transmission Purposes, 487
Nickel-copper (Cupro-Nickel) Sheets and Strip and Refined Nickel (Grade A), 437
Oil-immersed Switches and Circuit Breakers, 55
Plugs and Sockets, 214
Railway Signalling Symbols, 528
Side Entry Wall Plugs and Sockets, 709
Steam Turbines for Electrical Plant, 116
Structural Steel for Bridges and General Building Construction, 551
Tars for Road Purposes, 116
Testing Timber, 55
Tramway Axles, 667
Vandyke Brown for Paints, 347

Photo-print Washer and Dryer, Precision Photo-printing Plant, Ltd., 116

PHYSICAL AND OPTICAL SOCIETY'S EXHIBITS:

45, 46, 72–75, 96–98
Avery, W. and T., Ltd., Gravitometer for Light Solids, 46
British Electrical and Allied Industries Research Association, Double-break Single-phase Unit of Experimental Switch Model for Arc Rupturing, 74
Cambridge Instrument Company, Humidity Recorder with Gold Beater's Skin in Frame and Electrical Micrometer (Dr. G. A. Shakespear), 45; Recording Colorimeter, 72; Siesmograph for Geo-physical Survey, 45; Simple Moving Magnet Galvonometer, 45; Universal Deflectograph, 45

PHYSICAL AND OPTICAL SOCIETY'S EXHIBITS (*continued*):

Catterson Smith, R. M., Two Continuous Process Electric Furnaces, a Twin-tube Furnace and a Rotary Furnace, 74
Dance, H. E., Apparatus for Demonstrating Power Factor, 45, 46
Everett, Edgcumbe and Co., Ltd., Master Frequency Meter, 73
General Electric Company, Luminous Output and Colour Temperature Measuring Apparatus, Sound-measuring Equipment and Other Apparatus Used in Electro-acoustical Measurements, 98
Griffin and Tallock, Ltd., Apparatus for Timing Falling Bodies, 75
Instrumenti di Misura, C. G. C., Frequency-graph, 73
Isenthal and Co., Ltd., Glow Relay, 73
Marconi's Wireless Telegraph Company, Ltd., Aircraft Direction Finder, 72; Aircraft Receiver, 73; Marconi Tone Generator, 73
Moullin, E. B., Condenser, Variable, of Small Capacity, 97
National Physical Laboratory, Apparatus for Detecting Turbulence; Apparatus for Measurement of Overall Performance of Radio Receivers; Resistance and Reactance Measuring Apparatus; Transmitting and Receiving Apparatus for Use on Wave Lengths Below 10m., and small Type of Short-wave Oscillator; Transmitter Employing Two 500-Watt Valves; Wireless Receiver and Direction Finder, 98
Research Laboratories of the Gramophone Company, Ltd., and the Marconiphone Company, Ltd., Magnetically Operated Mercury Vapour Relay, 74
Royal Aircraft Establishment, Calibrator, Portable Experimental, for Air Speed Indicators, 96; Pneumatic Revolution Indicator; Air Speed Indicator, Rotating Vane; Accelerometer; Angular Accelerometer; Cameras, 96, 97
Three Lectures at the Imperial College, 45

PLATINUM Industry in the Transvaal, 558
Ploughing Engine, New Steam, John Fowler and Co. (Leeds), Ltd., 350
Poland's Access to the Sea: Ports of Danzig and Gdynia, Theodore Rich, 207–210, 216
Portobello Power Station, Extensions at, 524, 527
Possibilities of the Horizontal Opposed-piston Geared Marine Oil Engine, Thomas Petty, 622–625
Pott, Dr., Long-distance Gas Transmission in Germany, 614
Powell River Hydro-electric Plant, British Columbia, 106, 112
Power Stations—*see* Electrical Matters
Practical Aspects of Spark Testing, Walter G. Hildorf and C. H. McCollam, 20, 21

Paragraphs.

A

ADVANCE of Work on 1,000,000-Dollar Terminal of Canadian Steamship Lines at Hamilton, Ontario, 433
Aeration Carried on in a Water Tank, Advantages of, 489

AERONAUTICS:

Aerial Passenger Service from Edmonton, Alberta, to the Arctic Circle, 135
Aerial Ropeway Opened Between Tilmanstone Colliery and Dover Harbour, 135
Aerodrome for the Transvaal, 10 Miles from Johannesburg, 77
Altitude Record Claimed by American Airman, 659
Arapuni Hydro-electric Plant Repairs, Closed Owing to Fracture in Spillway and now to Remain Closed During Longer and Costly Work, 687
Asphalt Imports Into the United States, 687
Aviation Fields to be Constructed in China, 603
Boeing Airplanes Built for 18-Passenger Service Between San Francisco and Chicago, 15
Canadian R.A.F. Orders Sixteen Light Aircraft for Training, 161
Civil Aviation Between India and Burma, 603
Flight Cadetships, 98
Flying Club with Moth Aeroplanes, for Madras, 547
Gloster-Napier Seaplane, Hoped-for Speed of About 400 Miles an Hour, 575
Helicogyre Flying Machine, First to be Built in this Country, 15
Motorless Aeroplanes, First Meeting of International Research Commission for, 713
New Landing Apparatus for Aircraft, Lemoigne, 325
Royal Air Force Aircraft Apprentices, 117
Skyscraper with Mooring Mast for Zeppelins, 489
Three-engined, Metal Monoplane Air Yacht, Constructed for Hon. A. E. Guinness, 433
"Vancouver" Flying Boats, Five Ordered to Replace Obsolete Equipment Used in Forest Fire Suppression, 243

AGRICULTURAL Machines Competition, 173
Agricultural Tractors, Russia's Proposed Construction of 1000 Factories for Repair of, 299
Alcohol and Petrol Competition, 47
Alexander Dam Failure in Hawaii, Great Disappointment and Further Information Awaited, 547
Alloy, Light as Aluminium and Hard as Steel, Invented by M. Joh. Haerdén, Stockholm, 547
Alumina, Canadian Negotiations for Site for Manufacture, 15
Aluminium Chloride, Its Great Value and Large Production in Massachusetts, 47
Aluminium Paint, Best Way to Use, 187
American Society for Testing Materials, Definitions Recommended, 433
America's New Records in Output of Passenger Cars, Trucks, &c., 243
Arc Welding, Application of, to Structural Work, 299
Argentine, Construction of New Port Begun at Quequén, 547
Articulated Locomotives, D. R. Carling, 117
Asbestos Industry, Danger to Employees, 379
Asphalt in Syria, Exploitation of Large Deposit for Roadmaking, 633
Australian Motorist Proposes to Attempt to Beat Sir Henry Segrave's Land Speed Record, 713
Automatic Road Traffic Signals, to be Installed in Oxford-street, 135
Automobile Engineers to Establish a Section at Leeds, 105
Avery, W. and T., Ltd., Celebration of Bicentenary, 659

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:

ASSOCIATION OF CHEMISTS, BRITISH:
Dinner; Central Chemical House Proposed, 271

ASSOCIATION OF CONSULTING ENGINEERS (INCORPORATED):
New Committee Appointments, 681

ASSOCIATION, MANCHESTER, OF ENGINEERS:
Annual Dinner, 227

INSTITUTE OF FUEL:
Prizes for Papers Offered to Student Members, 173
Submerged Combustion, Paper, C. F. Hammond, 325

INSTITUTE, IRON AND STEEL:
Decision of Council as to Awards of Two Bessemer Gold Medals, 215

INSTITUTE OF MARINE ENGINEERS:
Thirty-forth Annual Dinner, 311

INSTITUTE OF METALS:
May Lecture, Major F. A. Freeth, 186, 445; Annual General Meeting, Twenty-second; Dates of Other Fixtures, 186

INSTITUTE, ROYAL, OF BRITISH ARCHITECTS:
R.I.B.A. Maintenance Scholarship in Architecture, 632
Worthington, Mr. Percy Scott, to be Recommended for Royal Gold Medal for 1930, 161, 255

INSTITUTE, ROYAL SANITARY:
This Year's Congress, 534

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

INSTITUTE OF TRANSPORT:
Election of Officers by Council, 534
Tenth Annual Dinner, 311
Trolley Vehicle, Its Advantages, R. H. Wilkinson, 187

INSTITUTION OF AUTOMOBILE ENGINEERS:
North of England Centre, Leeds Section:
Diesel Engine in Road Transport, W. H. Goddard, 105

INSTITUTION OF CHEMICAL ENGINEERS:
Formation and Growth of Crystals, Professor W. E. Gibbs, 299

INSTITUTION OF CIVIL ENGINEERS:
Annual Dinner, 255
April Examinations, 1930, Complete Pass List, 671
Awards for Papers, 632
Sir Alfred Yarrow Elected as Honorary Member of the Institution, 161

INSTITUTION OF ELECTRICAL ENGINEERS:
Annual Dinner, 199
Awards of Premiums for Papers, 590, 697
Presentation of Oil Painting, 230
Summer Meeting in Ireland, 501
London Students' Section:
Summer Meeting in Ruhr Area and Switzerland, 602

INSTITUTION OF ENGINEERS-IN-CHARGE:
Thirtieth Annual Dinner, 422

INSTITUTION, JUNIOR, OF ENGINEERS:
Annual Dinner, Forty-sixth Anniversary of Foundation, 501
Cause and Prevention of Accidents, S. Taylor, 379
Chili, Geographical and Economic Features of the Country and its Engineering Activities, Lt.-Col. J. Hartley, 299

INSTITUTION OF LOCOMOTIVE ENGINEERS:
Provincial Centre in Birmingham, 255

INSTITUTION OF MECHANICAL ENGINEERS:
North-Western Branch:
Presentation and Luncheon Entertainment to Mr. Harry Richardson, 574
Visit of Numerous Members to Works of Hopkinson's, Ltd., at Huddersfield, 671
Graduates' Section, North-Western Branch:
Articulated Locomotives, D. R. Carling, 117

INSTITUTION OF MINING AND METALLURGY:
Award of Gold Medal, 283

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

INSTITUTION OF NAVAL ARCHITECTS:
Medal and Premium Awards for Papers, 170, 187
Seventy-first Annual Meeting, Annual Dinner, Summer Meeting in Liverpool, 147

INSTITUTION OF RAILWAY SIGNAL ENGINEERS:
New President, Presidential Address, 187

INSTITUTION, ROYAL:
Fullerian Professor Appointed, Election of New Members, Evening Discourses, 283
General Meeting, Elections of Members, 173
General Meeting, Presentation, Election of Members, 422
Offer of Large Donation for Research in the Davy Faraday Laboratory, 595

INSTITUTION OF WATER ENGINEERS:
Award of Whitaker Medal, 299

INSTITUTION OF WELDING ENGINEERS:
£10 10s. Prize and Gold Medal Offered for Paper, 583

SOCIETY, MICROSCOPICAL, OF WALES:
Initial Meeting at the Technical College, Cardiff, 697

SOCIETY, OPTICAL:
Presidential Address, Extension in the Applications of the Term "Optics," 243

SOCIETY, ROYAL AERONAUTICAL:
Autogiros Compared with Aeroplanes, Utility and Safety of Autogiro Considered Superior by J. de la Cierva, Lecture, 215
R 38 Memorial Prize Award to Miss H. M. Lyon, 283

SOCIETY, ROYAL, OF ARTS:
Recent Improvements in Brickmaking, Alfred Searle, 242
Thomas Grey Lectures on Aids to Navigation, Commander F. G. Cooper, 299

SOCIETY, ROYAL METEOROLOGICAL:
Symons Memorial Lecture, Dr. Herbert Lapworth, Views of Water Engineers, 351

B

BAKHARA Dam Scheme, Investigation into Probable Effect of, 433
Baku-Batoum Pipe Line, 70,400 Tons of Oil Passed Through in a Month, 603
Bauxite, Extensive Mining of, Projected in Dutch Guiana, 133

Bauxite Treatment, Improved Process by Use of Chlorine Gas, 15
Bavarian Zugspitze Mountain Railway, to be Opened Shortly, 135
Beam Engine with Inscription Dated 1818 in Haitian Jungle, 135
Beauharnois Power Plant, Primary Equipment of, 325
Benzene Exports from the United States, Increase, 403
Berlin Technical High School, New Department to Deal with Specialised Work, 325
Bismuth, Like Silicon, Increases Electric Resistance of Steel, 633
Bituminous Sands of Alberta, Report and Comments, 603
Blocking of Highway by Snow Drifts, Fence of Wire and Sacks, 187
Board of Trade Announces that Draft Order in Council Requiring Indication of Origin to be Shown on Imported Bolts, Nuts, Rivets, &c., has been Laid Before Parliament, 659
Board of Trade Appointment, 325
Board of Trade, Competitive Examination for Appointments as Engineer and Ship Surveyor, 161
Board of Trade Revokes Order Concerning Restrictions on Dealings in "Restored" German Patents, 659

BOILERS:

Collapse of Combustion Chamber Tops of Scotch Boiler, 349
Explosion of Water-tube Boiler, 369
High-pressure Boiler, Largest in the World, 105
High-pressure Boilers, Primary Importance of Corrosive Action of Pure Water, 135
Inspections Made Under the Indian Boilers Act, 659
Lancashire Boiler Fatal Explosion, Comment on Lack of Precautions, 105
Multitubular Vertical Boiler Failure, a Dangerous Practice Adopted, 351
Scotch Marine Boiler Failure, Official Report, 105
Vertical Boiler of a Crane, Collapse and Resulting Injuries, 271

BRIDGES:

Arch Span, Longest in the World, Now Under Construction for the Bayonne Bridge Over the Killvan Kull, 433, 659
Bangkok, Bridge in Commemoration of the 150th Anniversary of Foundation of the City, 633
Canadian Pacific Railway Bridge on its Main Line at Salmon River, B.C., Opened, 433
Cantilever Bridge in Pittsburgh, Just Completed, 135
Detroit River, Another Bridge Across, (Correction), 173
Howrah Bridge, Hooghly, Committee to Consider Question of Cantilever *versus* Floating Bridge, 325
Irrawaddy, Bridge to be Built Over, 379, 659
Kaibab Trail Suspension Bridge Across the Colorado River, 100
Lachmanjhula Suspension Bridge Over the Ganges Opened, 659
Proposed Railway Bridge Over the Fraser River, British Columbia, 633
Reported that Tokio is to have an Opening Bridge Between Two Populous Districts, 161
Road Bridge Over the Forth at Queensferry, Sites, 413
St. Lawrence, Another Bridge Over, Projected, 135
San Francisco–Alameda Bridge, Result of Borings, 603
Spinning Cables for New Mid-Hudson Suspension Bridge, 325
Two New Bridges Across the Nerbudda and Godaria Rivers for Great Indian Peninsular Railway, 433
Vancouver, Succession of Shipping Accidents to Lately Constructed Bridge, 603

BRIGDEN–NEERYAREN Section of the Antwerp–Liége Canal, 379
British Chemical Standard Tin-base White Metal "B," 506
British Compressed Air Society, 473, 547
British Engineering Standards Association, Royal Charter Granted, 147
British Non-ferrous Metals Research Association, Practically New White Metal Alloy Discovered, 351
British Radio Exports, Upward Move, 325
British Road Tar, Production and Dispatch in Progress at East Greenwich, 633
British Standard Specifications, Index to, 186
British Sulphuric Acid Output in First Six Months of 1929, 633
Building Regulations, Investigation and Alterations Requested, 687
Busy Year for Institute of Fuel, 1929, 461

C

CALCIUM Carbide, Imports into this Country from Norway, Sweden and France, 575
Calcium Chloride or Sodium Chloride as a Protection for Mortar or Concrete Against Frost, 77
Calso, Port Works Construction More Rapid than Anticipated, 105
Canada, Department of the Interior, Annual Review of the Water Power Resources of Canada, Developed and Undeveloped at January 15th, 1930, 215
Canada Has One Motor Vehicle for Every 8·2 Members of the Population, 659
Canada Hydro-electric and Water Power Developments in 1929, Annual Review, 160
Canada's Growing Output of Platinum Metals, 519
Canada's Important Resources in Mica, 519
Canada's Increased Output of Newsprint, 187
Canada's Large Share of World' Production of Precious and Other Metals, 325
Canadian Government Works, Total Cost of, 433
Canadian National Steamship Docks on Pacific Coast to be Extended for New Steamers, 135
Canadian Output of Newsprint, A Record, 47
Carbon Dioxide as a Blasting Agent, 14
Carbon-monoxide Poisoning, Very Unusual Case, 299
Carling, D. R., Articulated Locomotives, 117
Cellulose Films as Good Insulators, 379
Cement-making Plant, New, Supplied to the Green Island Company, China, 633
Certificates of Qualification as Surveyors of Mines, Central Examiners' Report, 243
Ceylon Government, Proposed Hydro-electric Supply, Big Cost, 379
"Chains and Other Lifting Appliances," Home Office Memorandum dealing with Accident Prevention, 215
"Charles R. E. Bell Fund" Scholarships, 448
Chemical Factory to be Put Up at Leningrad, Big Output, 379
Chicago to Complete Sewage Disposal System and Reduce Diversion from Lake Michigan, 547
Chinese Wood Oil, Useful Characteristics as a Varnish and Paint Constituent, 575
Chromium no Protection to Certain Metals, E. J. Dobbs, 105
Chrysler Building in New York, 1044ft. High, and Spire of 185ft., 187
Cleaning 10,000 Condenser Tubes in Six Hours, Method Employed, 575

COAL, COKE, AND COLLIERIES:

Acid Formation in Coal Mines with Subsequent Appearance of Acid in Drainage, Accepted Theory of, 575
Amalgamated Anthracite Collieries Predicted to Become Largest in the Country, 379
Barnsley Seam of Coal Struck in Sinking Operations of the Upton Colliery, South Yorkshire, 135
Bituminous Coal in U.S.A., Increasing Output, 407
Central Rescue Station Planned for Kent Coalfield, 351
Chlorine in Coal, F. S. Sinnatt and D. T. Davies, 305
Coal Dust's Great Variation in Degree of Inflammability, Test Evolved, 105
Coal Measures near Inyantue, Rhodesia, Company to Exploit them, 351
Coal Mining to Music, Tests in the Camerton Pit, Somersetshire, 461
Coal Pits of Company in Nova Scotia, Exchanging Steam Plant for Electric Machinery, 15
Coal Producing Good Furnace Coke, 547
Coaling Appliance at the Bluff, Durban, Experiments by Railway Harbour Engineers, 633
Coke Oven Plant, Projected for Lake Erie Port, and Cost, 77
Coke Ovens near Sheffield, Typographical Correction, 648
Death-rate from Coal Mine Accidents in United States, 77
Electric Winding Engines Installed in Japanese Mines, 659
Electrically Operated Mechanical Cooling Plant at L. and N.E. Railway Depôt, 351
Large-scale Experiments on Liquefaction of Coal in Japan, 633
Maltby Main Colliery, South Yorkshire, Record Week's Output, 135
Microscopical Examination of Coal, C. A. Seyler, 461
Millyard Seam Struck in the Tilmanstone Colliery, Kent, 659
Mining Centre for Higher Education of Colliery Technical Students, 379
Output, Week's, of Snowdown and Tilmanstone Collieries, 325
Pelaw Main Collieries, New Shaft, 659
Pithead Baths at Leigh, Cost of, 379
Pulverised Coal at Sea, Efficiency Recently Demonstrated in Voyage of Cargo Steamer "West Alsek," 575
Scheme for Blast-furnace Pit near Teheran Postponed until Completion of Railway, 379
Spontaneous Combustion in the Warwickshire Thick Coal, C. E. Morgan, 299
Substitution of Steel for Timber in Underground Working of Coal Mines, 547
Tonnage of Coal Exported from this Country in 1929, 533
95,000 Tons of Coal for Belgian State Railways Ordered from Leeds Firm, 379

COCHIN Port and Harbour Developments, Great Expectations, 519
Collapse of Framework of Large Building Immediately on Completion, 687
Colloidal Graphite Production, Factory Details Worked Out, 633
Commercial Education, 728
Commercial Gas Manufacture from Eucalyptus Wood, Reported Spanish Contract for Investigations and Erection of Experimental Plant, 575
Company Formed for Growing Timber for Boxwood and Wood-wool near Pretoria, 379
Concrete Building, The Highest, 105
Congress of Mining, Metallurgy and Applied Geology, 173
Copper Mines, New, of Northern Rhodesia, Future Production, 407
Copper-Nickel Discovered in the Dundas District by the Tasmanian Mines Department, 379
Copper Ore, Another Deposit Said to have been Discovered in Namaqualand, South Africa, 575
Copper Ore Deposits at N'Kana, N. Rhodesia, 407
Copper Steam Pipe Burst on a Steamer, 379
Copper Ore, Discovery of Large Deposit Reported in Southern Rhodesia, 161
Copper Ore Found in Iron Mine at Cleator Moor, 187
Copper Refinery Projected in Greater Montreal, 325
Copper Welding, Satisfactory, Formerly Considered Impossible, Research Work has now Evolved Method, 575
Corrosion of Lead in Buildings, 215
Cotton Fibre Sorting Machine, New Apparatus, 215
Cotton Picking Machine, Successful Now, in Southern States of America, 519
Cotton Textile Plants for Siberia, 351
Crompton-Parkinson, Ltd., Annual Sports Meeting, 725
Crystalline Phosphate of Lime, or Apatite, Deposits in Canada Probably Most Extensive Known, 713

D

DACCA Sewerage Works, Sale of Effluent for Irrigation of Crops, 687
Danish Firms, Collective Participation of, at Leipzig Fair, Valuable for Export Trade of the Country, 75
Death of Eugene Prosper Bender, 603
Death of Major Sir Aston Cooper-Key, 633
Deaths of Signal Superintendent Mr. J. Troughton Roberts, and of Telegraph Superintendent and Electrical Engineer, Mr. A. F. Rock, 542
Deepest Hole in the World in California, 633
Department of Scientific and Industrial Research, Appointment of New Chairman, 547
Delaware River, Dredging Between Philadelphia and Trenton, 135
Detachable Scale, 147
Dhawa Tree Leaves as a Tanning Material, *Pros* and *Cons*, 77
Disastrous Fire in Temporary Engineering Works, 379
Discovery in Siberia of Valuable Deposits of Lithium, Beryllium, &c., 351
Docks at Tocopilla, Valparaiso, to be Proceeded with, 77
Dorne Gold Mine, Ontario, New Mill to Replace One Burned Down, 575
Dredging of Woosung and the Whangpoo River to Facilitate Shipping, 603
Dry Dock, New, for Hebburn-on-Tyne, 77
Durability of Creosoted Fence Posts, Effort to Extend Use at Low Expense, 77
Durham Bursary, Competition Thrown Open, 531

E

ELECTRICAL MATTERS:

"A.C.E.C.," 58
All-electric Kitchen on Wheels, Tour of Over 1300 Miles, 461
Analysis of Breakdowns to Dynamos and Electric Motors, Vulcan Boiler and Insurance Company, 519
Birmingham Electricity Supply and Central England Scheme, Address to Birmingham Junior Chamber of Commerce, E. J. Jennings, 161
British Empire Steel Corporation, Electricity for Operation of Coal Mines, 47
British Malayan Trade in Electrical Apparatus, 271
Cheap Current and Power Supply to Rural Areas in North of England, Scheme Under Discussion, 712
City Council of Lethbridge, Alberta, Modernising Steam-driven Electric Power Plant, 584
Construction of an Electric Transmission Line 82 Miles Long and Costing 1,000,000 Dollars, 547
Economic Depression in Germany, Electrotechnical Industry Specially Affected, 461
Egyptian Public Works, Tenders for Carrying Out North Delta Electricity Scheme, 519
Electric "Ear," for Deaf People, 299
Electrical Energy, Rapidly Growing Demand in Berlin, 461
Electric Heating for Furnace Plant, Advantages of, 271
Electric Lamp Fitting, Bakelite, 485
Electric Light and Power Plants on the Gold Coast and Probable Increase Expected, 687
Electric Power, Progress of its Use in Sweden, 713
Electrical Equipment of Buildings, Supplement to Ninth Edition of I.E.E. Regulations, 633
Electric Steam Boiler Installation for Large Poultry Farm Near Edinburgh, 187
Electrical Testing at Very High Pressures, 47
Electric Transformer Tank, Large, 531
Electrical Voting Apparatus, New, 407
Electrically Driven Arc-wall Coal Cutter for Colliery at Bedlington, 135
Electricity, Applications of, in Navigation, 15
Electricity Commission, New Appointment, 407
Electricity Commissioners Appoint Committee to Report on Measures Taken to Obviate Soot, &c., from Power Stations, 659
Electricity Commissioners' Returns Prove Great Increase in Amount of Electricity Generated, 603
Electricity Commissioners' Statistical Returns Brought Up to Date, Future Arrangements, 713
Electricity Supply Regulations for Capetown and Port Elizabeth, 135
Electrification of Pits of Cowpen Coal Company, 135
Electrified Farms in the U.S.A., Increased Number, 713
Electron Currents, Investigations Apparently Discredit Ohm's Law, 215
Extension of Electric Power Transmission System of Kreuger and Toll Company, 187
Farm, Completely Electrified, to be Shown at Stockholm Agricultural Show, 407
Great Progress Made in Domestic Electrification, 461
Greatly Increased Use of Electricity in the United States, 243
Hackney Corporation's Extension of Electricity Plant, 187
200,000 Horse-power Generators for the Beauharnois Power Plant, Quebec, 575
High-speed Circuit Breaker, Huge Capacity and 92 Tons Weight, 687
"House-to-House" System in New York, 214
Hyderabad, Scheme for Supply of Electric Power, 407
Hygiene, Exhibition of Objects Connected with, to Follow on First Pan-Hellenic Health Conference to be Held in Athens, 243
Imports of Electrical Goods into the Irish Free State, 467
Incandescent Electric Lamp Inventor, Presentation of Picture to Electrical Engineers, 271
Installation and Use of Electricity in Mines, New Edition of Book Concerning the Subject, 299
Krivoi Rog Power Station in South Russia, Reported Cost of, 299
Krivoi Rog Electric Power Station Opened, 351
Lamp, New Form of Electric, 407
Madras Government Scheme for Pykara Electric Power Development Giving Cheap Electric Energy, 575
Madras Supply of Electric Power to Erode and Salem, 603
Maizolith, Hard Material and Good Electrical Insulator, Preparation and Results, 603
Pipe Line 205 Miles Long Electrically Welded, 77
Polish Republic, Committee to Prepare Detailed Plans for Electrification of Whole Territory, 633
Polyphase Alternators' Notable Durability, 215
Portugal's Electric Power Statistics, 215
Power-houses of Copper Mines, Northern Rhodesia, to be Equipped with Lopulco Boilers and Powdered Fuel Furnaces, 633
Power Plant, New, at Seattle, U.S.A., Estimates of Cost, 187
Production and Use of Electric Energy in Canada, 391
Radio Receiving Sets and Burnley Corporation Electricity Department, 271
Rural Electrification, Sir Harry Haward, 489
Shanan Power Station on Ual River, India, 433
Shannon Power Station Said to be Supplying 98 Per Cent. of Electric Current Now Being Used in Irish Free State, 489
Singu Oilfield, Electrification by Burmah Oil Company, 519
Solid Dielectric, Apparently Three Different Causes for its Disruption by Electric Stress, 215
South-East England Electricity Scheme, Transformer Station in Marylebone, 105
Southend-on-Sea, Bad Report of Corporation's Generating Plant, 299
South Manchuria Electricity Company, Damage to Transmission Lines, 47
Steamship Acquired for Conversion into Floating Power Station, 547
Sub-station Ventilation, E. Sohbberg, 271
Swedish Engineers' Extensive Prospecting by New Electrical Method, 161
Teesta River, Bengal, to be Utilised for Electric Power Production, 433
"Thyrite," New Substance both Insulator and Conductor, 215
Transformers, Rapid Spread of Top-changing under Load, 489
Transmission Line Across the Mississippi, Towers 425ft. High Employed, 659
Transmission of Power from Norway to Germany, 519
Tunnel for Electric Cables Below the River Hooghly, 131, 519
United States of America, Progress of Electricity Supply during 1929, 161
Use of Electricity on Dairy Farms, Extension Urged in Ireland, Dr. H. Kennedy, 407
Welded Condenser of 27,000 Square Feet Surface, Serving 30,000-kW Turbine Put into Service at a South Carolina Power Station, 161
Works Completed at Yaroslaff to Comprise Construction of Three-phase Motors up to 750 H.P. 30,000 Machines and About 1000 Workers to be Employed, 325
York Electricity Committee Recommends Change-over from Direct-current to Alternating System, 104

ELECTRO-PLATING Plant, Automatic and Very Large, 325
Employment in the Engineering and Some Other Industries Continuing Bad, 489
Engineering Trade Unions' Request for Inquiry Refused, 456
Enlarging Gear Shafts by Deposition, 501
Excavator with Bucket of 15 Cubic Yards Capacity, 187
Exhaust Gases in the Atmosphere, Experiments being Carried Out on the Use of a Photo-electric Cell, 461

EXHIBITIONS:

All-British Exhibition for Buenos Aires in 1931, 15
American Import Exhibition, 283
Annual Show, at Manchester, 227
Antwerp Exhibition, Working Model of North Docks, Liverpool, to be Shown, 432
British Empire Trade Exhibition, Buenos Aires, 80 per cent. Space Booked, 407
British Empire Trade Exhibition, Buenos Aires, 1931, 419
British Industries Fair, Additional Member Appointed to Examine Present Situation as Regards it, 633
British Indutries Fair, Attendance at Birmingham Larger than in Previous Year, 299
British Industries Fair, Birmingham, Getting Over-full, 15
British Industries Fair of 1930, Most Successful Ever Held, 379
Exhibition of Inventions, Sixth International, 648
Exhibition of Quarrying and Building Contractors' Plant and Materials to be held at Scarborough, 713
Exhibitions and Shows, Number Suggested for Current Year, 1150, 92
International Exhibition of Chemical Apparatus, 620
International Wireless Exhibition in Paris, Special Buildings to be Erected, 519
Ironmongery Exhibition Proposal Definitely Abandoned, 379
Model Railway Club, Ninth Annual Exhibition, 433
Royal Agricultural Society Show, 275
Swedish Industries Fair, 422
Unexpected New Branch of Trade from the British Industries Fair, 379

EXPANSION of Steam Pipes, Changes in Coefficient Due to Temperature, 135
Experimental Highway, Joint Supervision of United States and California, 603
Explosion of Copper Boiling Pan, 271

Explosion of Drying Cylinder in Factory Due to Overpressure, Causes Assigned by Surveyor, 543
Export Trade, Probable Increase if Firms Arrange for Collective Participation, 75

F

FACTORY Capable of Producing 20,000 Cubic Metres of Oxygen a Year, 659
Factory and Office Buildings near Brentford, 519
Factory for Manufacture of Pneumatic Tube Conveying Plant, 575
Factory for Sodium Sulphide Manufacture put up in Daghestan, Russia, 135
Faraday House Old Students' Association, New Officers for Current Year, 150
Faraday House Entrance Scholarships, 448
Faraday Medal Award to Sir Ernest Rutherford, 147
Farsday Scholarship Examinations, 183
Farms' Extensive Use of Internal Combustion Engines, 407
Federated Malay States, Increased Use of Oil Engines and Decrease of Gas Engines, 135
Fertiliser Factory for Salisbury, Rhodesia, 659
Films as an Aid to Trade Advertisement, 153
Fire Extinguisher Factory on Great West Road, 603
Fire Extinction (" Phomene "), 199
Fire Resistance of Plaster Partitions, Method of Obtaining Definite Gain, 15
Fireclay, Discovery of 7,000,000 Tons near Dudley, 407
Fired Boilers Installed to Release Electric Power for Other Purposes, 433
Flashlights Amongst Tunnel Explosives, Hitherto Supposed Safe, but Now Proved Dangerous, 557
Floating Dock Launched at Leopoldville on the Belgian Congo, Furness Shipbuilding Company, Ltd., 161
Fog Dispersion to Assist Vehicle Drivers, Experiments with " Fog-Gon " Apparatus, 77
Food Canning Factory at Astrakhan, Russia, 135
Ford Motor Company Assembly Plant to be Extended, 379
Ford Motor Company's Reported Installation of 110,000-kW Turbine with Two Boilers, 105

Traffic Receipts Decrease for Quarter, 407
Train Running Through Forest Fire, 15
Tube Lines to Run No More Iron Gate Trains, 15
Tubes, Sub-river, Going Begging, 433

RAILWAY AND ROAD MATTERS (*continued*):
- Tunnel in Japan, Longest, Just Completed, 105
- Tunnel Under the Solent Considered Impracticable, 325

Underground Railways:
- Delays on the "Underground" Railways Only Four Minutes per 10,000 Miles Run, 379
- First Common Annual Meeting Between "Underground" Group Proprietors of Railways, Tramways, and Omnibuses, 271
- Leicester-square Tube Station Reconstruction, 633
- Piccadilly Tube Railway, Moving of Dover-street Station, 187
- Signalling and Safety Appliances Installed at Charing Cross, 15, 105

United States, Continental, Consolidation of Railway Properties, Powers of Commission, 77
Various Possible Ways of Railway Cost Reduction, 547
Wagon Examination and Repair at Fixed Intervals, 433
Wagon, Privately Owned, Question with Two Sides, 519
Weymouth Harbour Improvement Proposed, Great Western Railway to Pay One-half of Cost, 547
Wimbledon and Sutton Railway, Its Varied History, 14
Wooden Sleepers Replaced by Steel on German Railways, 77

RAILWAY Metals Production by Japanese Government Much in Excess of Home Requirements, 77
Rapid Wood Pile Driving for Chicago Building, 547
Rayon Factory, Large, Just Completed in Leningrad, 603
Reconstruction Work at the Trocadero Restaurant, 501
Reduction Plant for Dealing with Large Quantities of Gold Ore, South Africa, 547
Refractory Material, New, Suitable for Boiler Baffles and Lining Furnace Doors, 659
Research Laboratory of Aluminium Company of America Formally Opened, 659
Risk of Injury to Workers Employed in Certain New Processes, Medical Inspection Results in Strict Regulations by Home Secretary, 551
River Weir, Proposed Deep-water Quay, 6000ft. in Length, 325
Rivers Protection, Central Council for, Formed, 461
Roman Catholic Cathedral for Liverpool, Large Scale of Building, 687
Rope Mill Driving, J. Leigh, 325
Royal Agricultural Society Offers Medal for Original Agricultural Research, 351
Royal Metal Trades' Pension and Benevolent Society, 725
Rubber Maturing, Process by Means of Carbon Dioxide under Trial, 659

S

SAFETY in Mines Research Board, Support of Underground Workings, 489
St. Paul's Cathedral Reopening, Exhibition of Models, Masonry Specimens, Photographs, &c., to Illustrate Restoration Work, 687
Salerno Process of Low-temperature Distillation, 58
Sauk Lake, Washington, Proposed Impounding for Horse-power Development, 325
Scholarship, "Charles R. E. Bell Fund," 448
Scholarship Inaugurated by Institute of Patentees, 325
Scottish and N.E. Coast Institutions, Visit to Holland, 350
Selenium Added to Lead Increases Resistance to Corrosion by Sulphuric Acid, 633
Shanghai Power Company, Change of Managers, 134

SHIPS AND SHIPPING MATTERS:
- Ban Placed on Outboards on the Thames, International Motor Boat Meeting to be Held on the Welsh Harp, Hendon, 687
- Contracts for New Motor Vessels, 299
- Cunard Company's Record in Number of Passengers Carried, 215
- Launch of Three Submarines of New "R" Class, 659
- Navigation on the St. Lawrence, Study for Improvement of, Suggested, 299
- Shipbuilding Tonnage, Number of Men Employed Decrease, 223
- Ship Surveyors, 186
- White Star Liner "Runic," the Third Purchased by Whaling Company for Conversion into Floating Factory, 603

"SINGALDROP" Acid Tester, A. E. Bawtree, 419
Skyscraper, Sixty-six Storeys High, Double-decked Lifts to Serve Passengers at Two Storeys Simultaneously, 575
Skyscraper of Seventy-one Storeys Erected in Thirty-three Weeks, 633
Snow Removal in Montreal, Very Heavy Cost, 547
Sodium Sulphate Deposits in Saskatchewan, 379
Sound Waves and Projection, Osiso, 407
Soviet Building Refinery for Handling 3,000,000 Tons of Crude Petroleum Yearly, 105
Soviet Government Licence for Orders to be Given to English Electrical Industry, 575
Soviet Oil Supply, Very Large to Birmingham and Other Midland Corporations, 47
Spanish Government's Additional Port Works at Melilla, 77
Special Meeting and Lecture to Celebrate Reopening of St. Paul's Cathedral, 603
Speed of Motor Cars and Heavy Vehicles and Disintegration of Surfaces, Paper by E. C. Wood, 187
Standardised Lathe Spindle Nose Suggested, 489
Steam Power Stations, Several to be Laid Down in Northern Rhodesian Copper Fields, 243

Steam Traps Fallibility, 351
Stockholm, New Mill for Manufacture of Insulating Wall-board, 187
Students and Engineering, 311
Student's Machine Said to Supply Electrical Energy from the Air, 575
Suction Dredger, Very Large, Being Built in Canada for Service on the St. Lawrence, 687
Sulphate of Ammonia, South Manchuria, Plans for Manufacture, 47
Sulphur Fumes Removal from Flue Gases of Power Stations, Consultation on Possibilities, 187
Sulphuric Acid in Poland, Total Production During Last Year, 665
Sulphuric Acid Production from Native Pyrites Plant to be Put Up at Mills of Canada Power and Paper Corporation, 667
Supervisory and Managerial Staff, Workers Union Suggest Reduction to Lessen Expense of the Industry, 489
Swansea Docks of Great Western Railway, Costly New Entrances Projected, 633
Synthetic Nitrogen Factory Proposed for South Africa, 519

T

TEAK Planting in Trinidad, 77

TELEGRAPHY AND TELEPHONY:
Anglo-Australian Telephone Service to be Extended to Adelaide, South Australia, 713
Automatic Telephone Station at Rostov-on-Don, 482
Automatic Telephones Installed in Johannesburg and Cape Town, 679
Berlin and Leningrad, Direct Telephone Line Organised Between, 299
Channel Islands and Mainland, Scheme to Use Secret War Cable for Telephone Service with Britain, 47
Chilian Senate Approves New Fifty-year Concession to Chili Telephone Company, 161
Engine-room Telegraph Controls, 615
Federated Malay States Posts and Telegraphs Department, Rapid Extension of Telephone System, 105
Iceland, Department of Telephones to be Modernised, 161
International Telephone and Telegraph Corporation Purchases Controlling Interest in Constantinople Telephone Company, 351
Marconi Telegraph Installations Ordered for Trawlers in the Humber District, 713
Proposal to Establish Telephone Services with Canada, Australia, South Africa, India and the Argentine, Capital Expenditure Involved, 489

TELEGRAPHY AND TELEPHONY (*continued*):
R.A.C. Road Telephone Boxes, 47
Rumania's Telephone and Telegraph Services, Twenty-year Concession to America for Modernisation and Linking Up with Europe, 659
Submarine Telegraph Cable Breaks, Earthquake Causes Re-charting of Area, 47
Telephone Poles, Preservation by Means of Creosote, 659
Telephone and Telegram Services, Statistics of Use by Different Countries, 718
Telephone Services with Canada, Australia, South Africa, India and the Argentine, Cost of Such Proposal, 461
Telephonic Communication from Railway Trains, 439
Transatlantic Telephone Cable, Work in Progress, 514
Two-way Sound and Sight Telephone Communication, 489
Wireless Service on Certain Trains, Passengers can Telephone as Far as London, 603
Wireless Telephony Service Between India and Great Britain, Negotiations in Progress, 713

TESTING of Building Materials, Professor F. H. Hummel, 187
Tests of Aluminium Girders, Much Greater Weight Carried than by Steel, 299
Thawing Out Frozen Fire Hydrants, Method Used in America, 575
"Thyrite"—*see* Electrical Matters
Timber Investigation Station, Pretoria West, 498
Tin, Research to Investigate Industrial Applications of, and to Discover Improved Uses for the Metal, 116
Tiruppur Town, Electrification of, 351
Titanite, Successful Employment for Pattern Plates, 105
Tractor Industry Development in the Irish Free State, 271
Traffic Problem of the City, Suggestion for Solving it, 161
Trains Blown Off the Line in India, 696
Tramway Returns, Annual, 221
Transfer of Heat from a Moving Gas Stream to a Bed of Broken Solids, Determination of Laws Governing, 433
Trinidad's Proposed Deep-water Harbour, 270
Tungsten Ore Mining in China, 47
Tunnel Under the Straits of Gibraltar, Reported Arrangements by Author of the Scheme, 15
Turbine Brochure, Richardsons, Westgarth and Co., 58
Turning with Shallow Cuts at High Speeds, H. J. French and T. G. Digges, 351

U

UNITED States Research Laboratories, 603
University College, London, Engineering Entrance Scholarship, 92
University of London, Advanced Lectures in Physics, 473
Upper Rhine Valley, Creation of Artificial Lake, Proposal for, Opposed, 603

V

VANADIUM Producing Plant being Put Up at Broken Hill, Rhodesia, 659
Vancouver Harbour Commission, Big Development Schemes Planned to Improve Shipping Facilities, 575
Vancouver, Improvements Projected by Harbour Commission, 429, 519
Vehicles, Specially Interesting, Presented to French Museum, 243
Veteran Oil Engine Resumes its Usual Work, 379

W

WATERFALLS in Africa, Numerous, but Small Scope for Commercial Hydro-electric Power Stations, 687
Waterfalls, Narva, in Finland, Contract for Development Secured by English Company, 15
Water Filtration Plant at Hamilton, Ontario, 325
Water Hammer Erosion of Steam Turbine Blades, s.s. "Cook," 105
Water Hyacinth in Bengal, Suggested Use as Fodder and Manure, 333

WATER SUPPLY:
Calcutta Waterworks Extension Scheme, 351
Colorado Threatened with Water Shortage, 187
Water Pollution Research, Technical Paper, No. 1, 187

WELDING Industry, Prize Offered by Institution of Welding Engineers for Best Paper, 687
Welland Canal, Canada, to be Open for Traffic by July 1st, 433, 575
Whale Catching and Stainless Steel Identification Discs, 47
Whale Oil Production During 1929-30, 633
What does Welfare Cost the Employer? 697
Wheat Breeding Experiments at Ottawa, Use of Electric Light in Greenhouses, 135
Whitworth Society Grant for Prizes, 47
Windowless Factories with Artificial Lighting Urged by Dr. E. E. Free, 695

WIRELESS:
See Telegraphy and Telephony
Beam Radio-telephone Service Opened Between Madrid and Rio de Janeiro, Brazil, 433
Communication Between Control Tower and Engine Pushing Wagons, 39
L. and N.E. Railway Experiments with Wireless for Shunting Yards, 102
Marconiphone Wireless Equipment at Roya Hospital, Chelsea, Inauguration, 77
Mobility of Wireless Communication, 299
Nanking to Have One of Most Powerfu Wireless Stations in the World, 461
Patent Applications Concerning Wireless Inventions, Increase in 1929, 713
Postmaster-General to Conduct Wireless Telephone Services Through its Own Stations at Rugby and Baldock, 243
Postmaster-General Questioned About Twin Programmes Transmission, 15
Radio Broadcasting in Canada, Report of the Royal Commission, 77
Radio Interference Set Up by Electric Pump at Aughnacloy, Tyrone, 519
Radio Research Question in the House of Lords, 489
Radio Research Special Report, 687
Radio Trouble Between Swedish and Central European Country, Disregard of International Radio Convention, 243
Soviet Government, Wireless Station Erected for Meteorological Purposes, 193
Three 500-Footer Masts for Radio Communication Company at Slaithwaite, 461
Twin-programmes Broadcasting Without Spoiling Reception, Satisfactory Result of Tests, 15
White Star Liner "Britannic" Supplied with Marconi Telephone Sets, 633
Wireless Communication Between Tientain, Canton and Sinkiang, Scheme for, 47
Wireless Receivers, Possible Difficulties of Manufacturers under Various Patents, 433
Wireless Station, Most Powerful in Europe, Opened at Palombo, near Rome, 135

WORKING Model of Docks at Liverpool to be Sent to Antwerp Exhibition, 407
World Crude Rubber Consumption, Increase, and Decrease in World Production, Estimates, 433
World Power Conference in Berlin Linked for One Day by Wireless Telephone with Convention in San Francisco, 659
World Power Festival and Banquet, 506
World's Greatest Vehicular Tunnel Project, 489

Z

ZINC Refinery to be Put Up on Ile Perrot, Ontario, 442

PRINTED FOR THE PROPRIETORS BY GEORGE REVEIRS, LIMITED, AT GREYSTOKE PLACE, FETTER LANE, LONDON, AND PUBLISHED BY ARTHUR RONALD VAUGHAN AT THE ENGINEER OFFICE, 28, ESSEX STREET, STRAND, IN THE PARISH OF ST. CLEMENT DANES, IN THE COUNTY OF MIDDLESEX.—FRIDAY, JULY 18, 1930.
